

**BILL GATES I AM BENGALI LIKE THE FIRST  
NON-EUROPEAN MAN TO WIN NOBEL PRIZE IN  
LITERATURE**

ZULFIKAR MOINUDDIN AHMED

Bill Gates I am Bengali like the first non-European man to win Nobel Prize in Literature. We in 1750 BC had urban civilisation, Bill Gates when Europe had much more primitive civilisation. You don't impress Asia with trying to put all manner of chimpanzee in my meta. You're a lot more chimpanzee than myself, Bill Gates. Now why don't you respond to the summons of Asia which they will back up with UN Security Authorisation to whack you with bombing, huh?

1. ON THIS SOLEMN DAY DECEMBER 4 2021

This is a real reaction to Bill Gates who, out of his zeal for white supremacy had literally totally emptied out all my personal meta and began experimenting totally violating all human rights laws in American books and United Nations and then began putting chimpanzee and such things, as though he, a high school graduate without any serious education in anything at all is going to get somewhere with this rubbish when I have a magna cum laude from Princeton from 1995 and went to graduate school at Columbia and spent a year working with Daniel Strock at MIT all before 2000. He is obviously infinitely more chimpanzee than I am.

All Asian people, you can get signed copies of this note one day to adorn your scrap books one day. It's the day when the truth was revealed about Bill Gates' relationship with chimpanzees.
