

ZULF'S JANUARY 31 2022 LECTURES ON HOW TO ACT AND BEHAVE TO UNITED STATES GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

United States Government, you cannot take *money* from everyone in America in the amount of \$1.1 trillion and then pay yourselves and have a nice life and have food on your table and pretend that you are 'players' in the game. If you do that I will seek every one of you sons of bitches fired and you can stand in line for dumpster diving in sordid American poverty ridden cities talking about how life used to be so good. Do we understand each other?

You are not 'players'. You are the monopoly organisation in the land to *secure natural rights of Americans*. It's written in the United States Declaration of Independence. I am an American. USCIS# 046-077-179. When a slimebucket vile murderous criminal racial murderer starts cutting into the eyes of Americans like me your job is to eliminate the piece of shit – that means your job was to eliminate Bill Gates when he assaulted me immediately. If you need to be pushed to do your job, we don't need your services and you can land in the tramp line. Do you understand? What the fuck sort of civilised government 'sees how things go' to take out a career murderer? What the fuck do you think you get paid for United States Government. Get to work immediately.

1. LET ME LAY DOWN THE ELEMENTARY POLITICAL SITUATION UNITED STATES GOVERNMENT

A Princetonian with stellar academic record makes great sacrifices for purity of Science and struggles in adversity from 2008-2018 and makes immortal discoveries that will change the course of history and suffers poverty and tries to get back on his feet after a decade of abuse by family members for not making money and has a sick dying mother. He dedicates most of his work to his beloved people the human race. He plans to get back in the ordinary life and does some work in Finance that is worth a lot and David E. Shaw & Co. is willing to pay him \$120 million. The racial scumbag that United States Government has coddled for four-five decades has a *racial agenda* and plots to murder and destroy the life of the man pursuing his American Dream following the laws and customs of the Republic with no trace of criminality. The United States Government is not even able to deliver natural rights security for the man.

Forget about specific people involved. Who in the entire world with any human sentiments will respect you ever after this? Do you know how to make good judgments? No. Do you know what your purpose is that is written in United States Declaration of Independence Preamble? Apparently not. Who will want to have you around in the human race afterward?

Date: January 31, 2022.

It's an understatement that you won't look good. You're total scumbags after this. Why don't you wipe out these vile racial war criminals – that's right UN Security Council judged death for him for *war crimes like Nuremberg cats* – before you get hurt? I fail to understand what you do exactly.
