

## INSTRUCTIONS TO TRANQUIL ASIA

ZULFIKAR MOINUDDIN AHMED

I am Archangel Zulf Asia. I want all Asian military assets focused on defense of all Asian Heritage Sites, Museums, Libraries, Universities, Art Collectives. Then I want new joint strategic plans set to quickly destroy the same in Europe. Ignore industrial and commercial assets totally in Europe.

I want good scholarship and record of all Europe's Civilisational Heritage and all the best books ever published in Europe. Put in right now \$500 billion into collecting old books, manuscripts in Europe, any great art, and create bunker buster proof facilities in Asia to keep them safe. Do you understand? Spend any amount to keep records and take detailed photographs and information.

If United States begins a single war, just destroy all Europe's finest Heritage Sites, best Universities, Libraries, Art Collectives and turn around with profound tears of sadness and contrition and swear that you will never do it again and as consolation give access to Europeans to study at Asian Universities and teach them about all the great treasures of Europe lost to horrors of misunderstandings of the past and wars. Do you understand? Do this now.

Never ever fake the contrition. Learn to appreciate the horrible losses of great works of Civilisation. Moan and wail and immediately put in resources for elegies and songs to mourn the loss of European Civilisation. Do not delay. Contrition is very important for any potential Asian World Order. Don't do the Hiroshima/Nagasaki bombing and arrogance approach. Zulf guarantees that will fail.
