

ZULF'S RECOMMENDATION TO DENMARK, SWEDEN AND NORWAY FOR PRIVILEGES WITH ISLAMIC COUNTRIES

ZULFIKAR MOINUDDIN AHMED

Alright, my ex-lover Sine Jensen was nice to me, and she was Danish, so I will tell you the way to have an advantage over England, Germany, and France with Islamic Countries.

First of all, understand that Islam is just like Christianity and in fact Muslim morals are almost identical to Christian morals. This is key. Remember that. Muslim morals are neither much better nor much worse than Christian morals.

Second, find any thing at all that ever happened in history that gives you an edge and claim that you understand it was *God's Will* that the good thing happened. Repeat this a lot.

For example, Scandinavian Crusades were not with Muslims. Do not do deadpan. Say "Ah, it was God's Will that we never had any conflict during Crusade." The moment that it is *God's Will* they will embrace you as their brothers and give you more for your products. But don't lie about anything. Just scour through history and anything good is *God's Will*.

This will produce a huge diplomatic and trade advantage to Denmark, Norway, and Sweden over Germany, France, and England. Tell them it was *God's Will* that England, Germany, France was involved in Crusades against Muslims but you were not. Don't worry about what they think. It will work like a *charm*.
