

ZULF SEEKS IMMEDIATE REINFORCEMENT FROM EURASIAN POWERS

ZULFIKAR MOINUDDIN AHMED

Dear Eurasian Powers,

I am Zulf. I need immediate reinforcement in America. I have determined that there is a core but unmarked population of 15% of white people in America, and 9% of the general population who are core racists, crossing Republican and Democratic lines. I identify them as white people who consider race an important part of their identity. Around 5% of these consider race a very important part of their identity.

I want you to produce a strategy to isolate them politically in American Democratic politics and push them hard. I would like immediate study of how to do this without disturbing 85% of the white people who are not dangerous to the American or world population. These people hold all manner of genocidal views that they support in American Government.

I need some work here immediately. I want them to be *isolated* from the white population and then politicized in Washington, then I want a campaign to either educate them or ostracise them from American Society and mainstream. They are risks to America and the world.
