

ARCHANGEL'S LOG DECEMBER 4 2021

ZULFIKAR MOINUDDIN AHMED

Planet Earth. December 4 2021. United States continues to prepare wars against Asia. Europe – Germany, France, England – slowly become aware. Asia is unifying to face the threat. I always knew that Asia cannot *avoid* wars without Eurasian Defense Alliance. I have proposed the Alliance already. Asia understood quickly that they would have to unify. The question is whether Europe will be wise enough to drop out of NATO and formalise alliance with Asia. Putin is a blessing. He is bright and will join Asia. Russia is lucky to have him as leader.

The ace for Eurasia is that NSC-68 destroyed the Republic in America. I knew this for many years from Gore Vidal's beautiful work. But in order to exploit the sabotage of American People's Sovereignty, best is to unite Eurasia and ask them to move the 330 million Americans to realise that their sovereignty had been taken. In America they call this the "Deep State". I like something less mysterious, like *War Pigs*, because this is convenient. "The War Pigs stole your money and are plotting Evil with it in your name" will be understood. Perhaps the Eurasian Powers should inform the 330 million Americans of this, and this will be sufficient to put them in check. The elements are there coming together for a Natural Rights World Order now on Earth. The War Pigs, well they are comfortable in their cradle of power, and they will not truly understand their days will be numbered if they ignore the American People's consternation and the willingness of Europe and Asia to unite for natural rights of Europeans and Asians.

I will not return to Earth soon after this life. Never have I had to deal with a Demon in an Angelic World who is not put to death at all and besides harming me is annoying and stupid. I will take this up with Demon Lords of the Universe. They ought to have shown a bit more respect for an Archangel in a primitive Angelic world and removed their outcast Demon from bothering me. My daily life was made miserable by it. Anyway, I shall endure as I always have. I am Optimistic about Natural Rights World Order on Earth. This will be a worthy achievement.

So I am not sure what happened in Harry Truman's time. One theory is that Azrael was somewhere near this Galaxy. Well I won't tempt him to come. I have unexpected difficulties without having various Death Angels also accosting my tranquility.
