

ZULF CONSIDERS THE THREAT OF NEW TERRORISTS WHO SABOTAGE A NATIONAL SUMMIT OF DEMOCRATIC IMPROVEMENT

ZULFIKAR MOINUDDIN AHMED

The new sorts of terrorists are a mixture of some people from the Middle East and some Han Chinese people. They don't use box-cutters. They all use the red fan.

They hate our way of democratic debates and want oppressive censorship. But otherwise they just hijack planes and crash them simultaneously into *National Democratic Improvement Summit*. Then no one notices that the planes have extremely prominent external remote control devices and also that Convention Centers have explosive demolitions.

Then some people who are never seen from Pentagon come out sobbing for how horribly American Democracy is hurt vowing retribution and vendetta to Asia.

Sounds familiar, doesn't it. Eerie how history repeats itself. Truly strange. A lot of people knew that China hates our way of life and are colluding with Islamist fundamentalists.

Conveniently, we were quite prepared for shock and awe strategies for new wars.
