

ZULF WILL BE THE CONSCIENCE OF AMERICA

ZULFIKAR MOINUDDIN AHMED

With some of the great Americans such as Ralph Waldo Emerson quite dead, I see that there are not many people really able to be the Voice of Conscience of the Nation. There are no laws of the universe that say that the Voice of Conscience of America has to be of European descent. I am quite eligible for this position. I can be an American of Asian descent who then takes on the mantle of Ralph Waldo Emerson and become the Man of Great Conscience of America. This position is sitting vacant collecting cobwebs.

I am rather interested in this position. I like the idea that an Asian-American captures the Great Voice of Conscience of America, notices the pattern of Genocide from Korea to Vietnam to Iraq and Afghanistan, and lets the American People know of this Genocidal effort of unknown groups of people whose only certain public member is Bill Gates, the evil savage racial murderer. "Men of character are the conscience of the society to which they belong." This is spectacularly serendipitous, for I am indeed a man of great character and I do appreciate Ralph Waldo Emerson's insight. I shall be then, the Voice of Conscience of America. I am gratified and pleased to accept the Honours.

1. THE TERMS OF CONSCIENCE

American White People ought to understand that the gravest threat facing the human race today are American White People driven by Genocidal and savage and barbaric destructive malevolence for murder and butchery of Asian people in a misguided extension of Manifest Destiny which had led to Genocides and massive destruction of native people of America and now threaten the peoples of Asia. This is the center of issues of Conscience today for the Nation.
