

WHAT IS BILL GATES DEEP INSIDE?

ZULFIKAR MOINUDDIN AHMED

Bill Gates is just a *pure enemy of liberty and justice for all* with a lot of noise and smokes and mirrors. Nothing about him has any substance besides that. Understand this clearly. Deep inside, he is literally driven by his animosity towards liberty and justice for all and so he makes no sense. He is talking rubbish nonstop. He is just a *pure enemy of liberty and justice for all* and that fully and completely will explain all things of his life. There is no other substance at all to the man. If you do not understand that; if you do not see that, then you are too immature to understand anyone. There was no prodigy and intellectual genius I detected in the man. His technology and business knowledge is menial. He is just only and nothing other than *enemy of liberty and justice for all*. That has driven him all his life and that is the only things that you can find that he is made of.
