

ZULF'S NON-SUBORDINATION PRINCIPLE

ZULFIKAR MOINUDDIN AHMED

I am going to put my finger wagging picture in this note. Now wagging finger is quite interesting. It represents something I think quite universal. I wonder if it was invented more than 75,000 years ago when all our ancestors were in East Africa. That would be an easy explanation why people wag fingers at far ends of West and East with disparate languages, ethnicities, languages and cultures. I found a reasonable resource to investigate this but will leave aside for now [1].

Anyway, I will have some finger wagging soon with the demand that non-white people cannot be subordinate to any white supremacist people in America or in the world. I want thorough life history and detailed questionnaires filled out by any white person on Earth otherwise they cannot have any non-white as their subordinate.

This Bill Gates gave me a paranoid feeling that all these white supremacists are trying to enslave all unsuspecting non-whites who take any subordinate role. We can't have that at all.

The index finger moves from left to right in the *disapproving finger-wag* here.

What is being disapproved is the situation where various racially biased people are allowed to have non-white subordinates in institutions in the world. That's obviously a no-no, hence the disapproving finger-wag. I don't want to see Bill Gates or other white supremacists ever allowed to have non-white subordinates at all.

Date: December 9, 2021.
