

# I SUSPECT AT THE MOMENT THAT FBI WISHES TO HARM MY LIFE

ZULFIKAR MOINUDDIN AHMED

Individual FBI agents are nice enough fellows but I have deep distrust right now about what the intentions are of United States Government and FBI towards me. I have reported to the world that Queen Elizabeth's Royal Menders had reported that by November 4 2020, more than a year ago Bill Gates did enough harm to me to have killed any Bengali Man, but just today they came with threats that they will prosecute me and put me away. This is no different from this government as the Indian Removal Act under Andrew Jackson that continued the genocide of Native Americans in 1830, than the Japanese Internment during the Second World War, than the horrible treatment of Muslims since Israel's Mossad did 9/11, and I am not feeling very comfortable with their agenda. I had been writing to ask United States Government for more than a year that Bill Gates is an extremely brutal savage racial supremacist who has done irreparable harm to me, but they don't even interrogate him for a year but feel free to barge in intruding in my life when I make some provocative poster about pulling the trigger etc. I will have to be wise and remember what they did to the Native Americans. Who do they really serve? Do they really serve the ordinary American person like myself or do they, by gymnastics that allowed Abu Ghraib and the Mai Lai massacre, quite okay with sabotaging my life with psych wards and drugs while Bill Gates destroys all vestiges of Natural Rights of non-white Americans with impunity and destruction, rampaging with US War Meta and US Industrial meta damaging people's exoskeleton during their Harvard tenure considers. I will have to say I am extremely suspicious and I will make my suspicion known to the world.

## 1. LET ME EXPLAIN THE POSTER

I don't like guns at all. I thought it would be funny to write all sorts of 'Zulf, just pull the trigger. Zulf, it's so easy, just pull the trigger, it'll be okay' and so on with a red target on Bill Gates' forehead. Suddenly we have FBI knocking on my door saying this is a *threat*. Never mind that I don't own any firearms and have no record of actually harming anyone at all. Suddenly, I am a goddam *criminal* while Bill Gates cuts into my meta, obstructs real income of \$620 million and has an agenda to destroy lives and suppress the American Dream for all non-white Americans. There are apparently Texas judges that will sign a warrant to put me behind bars because it's a 'threat'. Never mind that Bill Gates put tens of billions for wars in Asia. Never mind all that, but even though Bill Gates is an entirely different state with whatever security \$131 billion can buy, I am now a *threat* to Bill Gates from disability income in Allen Texas. I am going to find out what is going on here. That is just outrageous.

---

*Date:* January 9, 2022.

## 2. HAH THAT'S FUNNY WHAT IF I SAY TRIGGER IS FOR CHARACTER ASSASSINATION?

These Texas judges are dumber than doorknobs. I never mentioned any guns. What if now I say well that's for a *Campaign* to Assassinate his Character and leave the assassination of his body to United States Government? What are you going to do to secure your judgment that it's a threat? What sort of threat?

## 3. FINE I'LL SAVE YOU THE TROUBLE TEXAS WHITE JUDGES

Why don't you pull out the order to process me through the mental health loop? My life is seriously threatened and you will find yourself in an international scandal because UN Security Council is involved and you will be instantly considered cronies of racial murderer Bill Gates since China was suspicious and did considers and found that Bill Gates and some wealthy white people have a plot to snuff out Natural Rights of nonwhites worldwide for a white supremacist world order. And when that happens, and given that my Four-Sphere Theory succeeded already and I am doing well in Stanford Mathematics Ph.D. Qualls problems, that will draw every International Human Rights Organisation in the world right to your doorsteps in a matter of months.

Then you will find that I was not even in physical education classes in high school in John Adams High School in New York 1987-1991 because I was shot at 11 and had a pellet stuck in my liver and my health was delicate and disliked guns. No one will respect your judgment against a struggling immortal genius who is seeking Stanford tenure, a Princeton graduate who was struggling to produce great works in Science from Allen when you treated me like a criminal and so on.

It's up to you. I am a master at geopolitics. Why did you get involved in a conflict with Bill Gates and myself at all? I mean you will be smeared as closet fascist white supremacists very quickly because Texas is not altogether too bright in geopolitics and never was.

Bill Gates is physically in Northwest boondocks near Canada. What made you think that suddenly I will be a great danger for saying 'Zulf, just pull the trigger?' what sort of judgment is that? Seems frivolous and ridiculous to me.

## 4. FINE I WILL TELL YOU THE FINE POINT IN THE PARTICULAR POSTER YOU SAW

If I was whispering not to myself but to *other people*, "Joe, Joe, just pull the trigger, pull the trigger" with a bull's eye on Bill Gates head. Then I would be held liable for an assassination of Bill Gates *if it were to happen* because I provoked it by my great influence over all sorts of people. But it's not a serious thing if I make the suggestion to *myself*. Why? Because I'm not that guy who has been hoarding pistols and machine guns for years. I'm pretty unhappy with guns, northeast liberal type. And Bill Gates is not across my street. He's out there in podunkville frontier far past all Civilisation. I mean who the fuck actually thinks Washington State is even in the boundaries of Civilisation? Not me. I would never do all the things necessary for doing that. That's for Matt Damon in the movies, taking planes, trains and doing all sorts of sniping of people with Russian or German names while romancing the ladies along the way. Whatever made you think Zulf would do any such thing?

Oh, hold on FBI and White Texas Judges. Let's do this quite openly. You see this is Matt Damon in *Bourne Supremacy*.

Are you sure you're sane? You actually think that Zulf is like Jason Bourne using all sorts of heavy duty sniper rifles from rooftops chasing down Billy Boy the Evil White Supremacist?

Why don't you take a real look at Zulf.

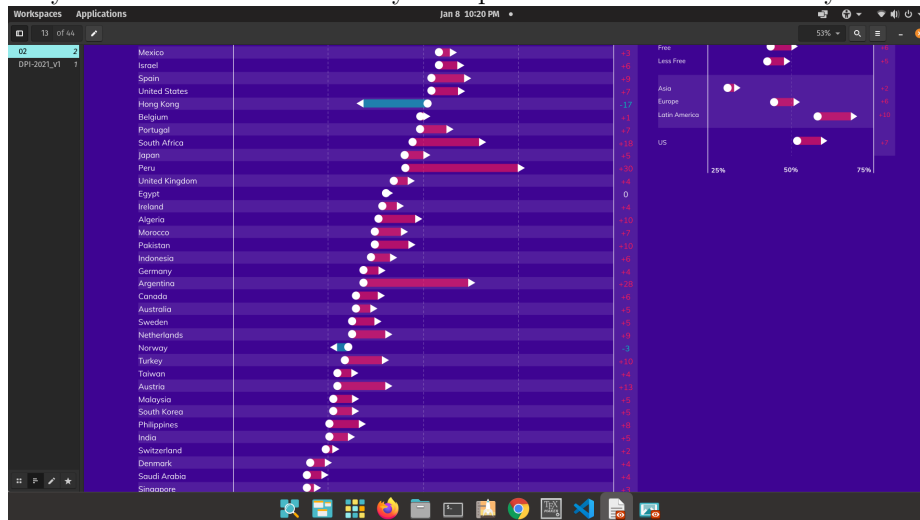

You think this man, myself, is like Jason Bourne. And you take \$1.1 trillion of American taxpayer money to come to this conclusion?

#### 5. LET ME TELL YOU SOMETHING FBI

In Democracy Perception Index China is doing better than the United States by a wide margin. You really think than barging into the abode of an American man with 34 years of Permanent Residency for an absurd political poster that was provocative threatening to put me behind bars will give the world a great sense of our governments securing Life, Liberty and Pursuit of Happiness versus China? You think that this is automatic, this "We're part of the free world" if you do this totally randomly, disturb Zulfikar Moinuddin Ahmed, who has no record of violent crimes, and threaten jail time in front of my aunt and brother while you do nothing

to Bill Gates at all? You think that American Liberty and freedom is going to look good in Asian universities after this?

Do you even know the Democracy Perception Index? Let me educate you.

You see the perception that United States Government acts in the interests of a minority is much higher here than in Saudi Arabia, China, Pakistan and India. Do you think that this is an accident, FBI?

You can find the 2021 Democracy Perception Index and take a look yourself. Do you think that your behaviour of accosting people and disrupting their lives with power of law randomly has to do with this, or you think that people randomly have consensus that US Government acts for the interests of minority – like Bill Gates?

## 6. LET ME TELL YOU MORE ABOUT WHO I AM INTERNALLY FBI SO YOU ARE NOT BEING FOOLISH

First of all in *geopolitics* I am better than your best guys without any doubt. I am literally ten times more talented than *Dean Acheson* and *George F. Kennan*. You can believe this or not. It's true. So you will end up getting embroiled in *international political foodfight* if you annoy me.

Second, I am not Rasputin, but I know that the way to kill anyone legitimately is getting the *government* to kill them. That's trivial, and I know this extremely well. So it is foolish of you to *pretend* that I would ever dirty my hands with bloodshed myself. I am not irrational, and know that legitimate power to kill people is government's by design, and your foolish use of a frivolous poster to put me away in psych wards is not bright because it will irritate me.

## 7. FINE, I WILL DO MY AMERICAN DUTY

Alright all people of FBI, let me tell you who you are, who you serve, and what your role is vis-a-vis 320 million Americans.

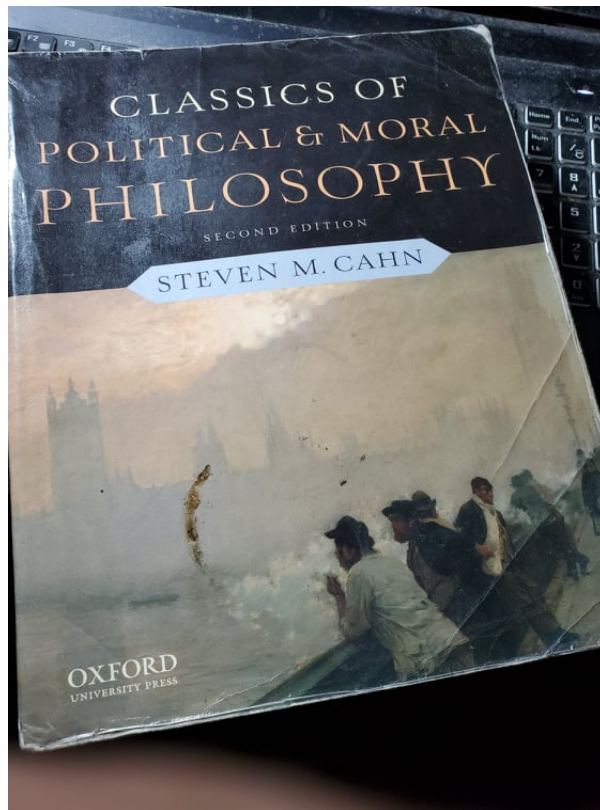

First, remember the United States Declaration Preamble. We hold these truths to be *self-evident* that all men (in the world, not just all white men and other claptrap) are *created* equal. That means me and you and females are included. That's what I believe actually, personally. I do believe that all men are *created* in

the sense of right after conception before the fetus is even a few millimeters in size, equal. We believe that they are *all* endowed with natural rights of Life Liberty and Pursuit of Happiness. The endowment is by *the Creator*. What that means is that no other people, not you, not England, not Turkey or Afghanistan, not the great godfather of Timbuktu, not the Celestial Emperor of Imperial China, but Divine Nature if you will, God in whatever way that you believe the Divine force that moves all things beyond human control, grants these rights. Then we believe that even though it is not governments that *grant these rights*, they are *instituted among men to secure them*. In other words, by being employees of the government your primary sacred duty is to secure *natural rights of people*. These include myself, for I am American by immigration and by paperwork. My Life, Liberty and Pursuit of Happiness is the goal of governments to secure. It is not your job to incarcerate me or put me in psychiatric wards by frivolous excuses, but to *secure my natural rights*. I am extremely displeased that you have embarrassed me in front of my brother and my aunt and accused me of being a *criminal murderer* with thin evidence. I am extremely displeased by this. Your job was to bring to justice an actual career racial murderer, Bill Gates, and you, instead chose to insinuate and embarrass me who has no record of any violent crime.

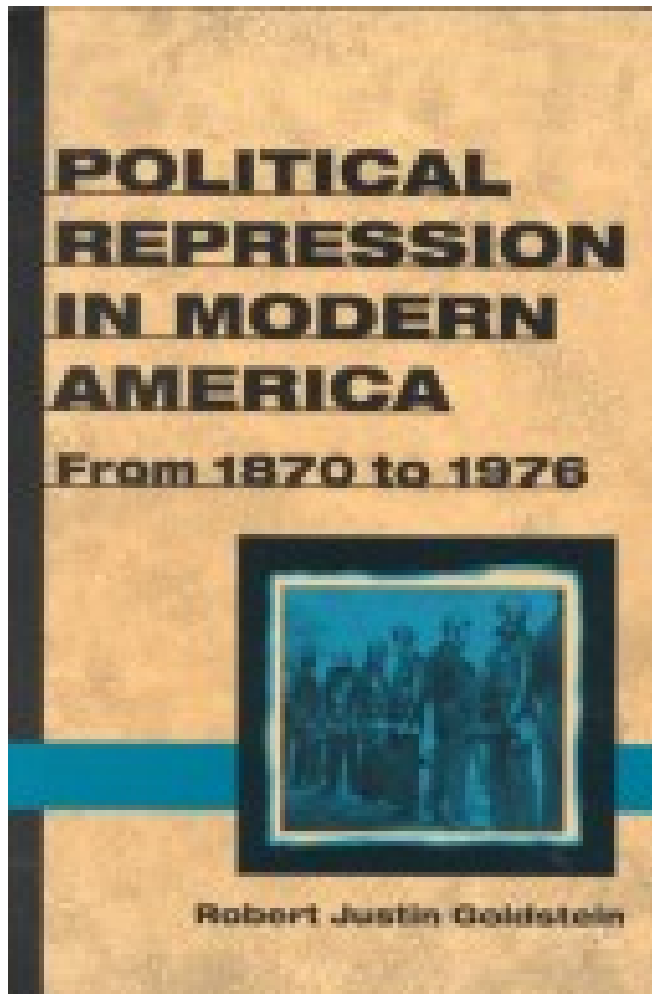

I have deep suspicions about whether you are actually doing anything legitimate at all. Do you pretend to secure natural rights of all Americans on paper and then instead serve only diabolical and tyrannical interests of *murderous and greedy and evil white rich men only*? That is a serious question on my mind.

## 8. LET'S SEE WHAT I HAVE HERE

I have John Rawl's *A Theory of Justice* that celebrates the John Lockean tradition and shores up Liberalism. But I am reasonably educated on moral and political philosophy. I've been working on psychology recently.

Now I have read this wonderful book and have a copy somewhere in the mess here but can't find it right now.

I really don't want to go into it. But if I am bothered I'll make some time. It's not that interesting but if you have to deal with it, you have to deal with it. I do think it would be good for FBI to read this book so that you have a better understanding of what has been the tradition in America.

You see, for you it's a minor issue, you didn't like someone's poster and it looked not so good to you, seemed 'threatening' and you cite some law and put someone behind bars. Well I am 49 trying to pursue my American Dream, so it's not that innocuous. I consider this quite severe evidence of *political repression*. Why? Because you're serving Bill Gates, and not me. You are criminalising the good man and not bothering a career racial murderer.

#### 9. MY RELEVANT POLITICAL BACKGROUND

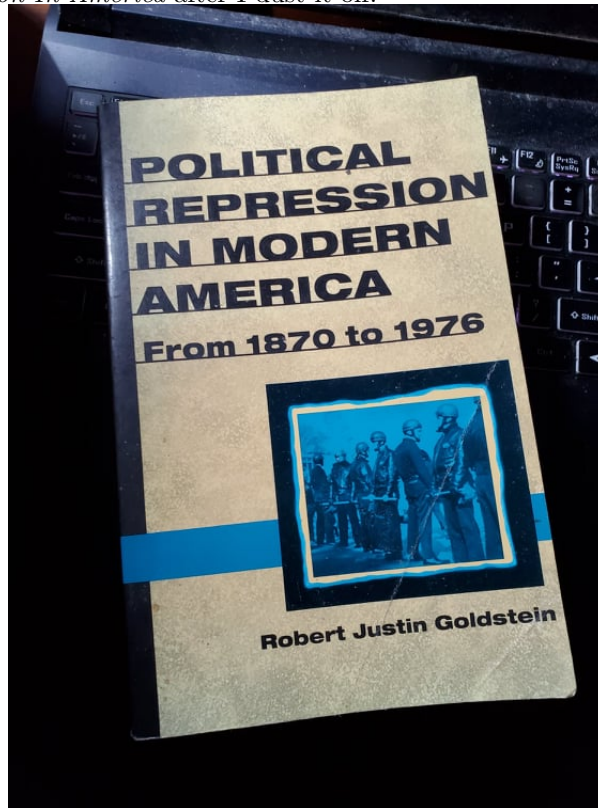

Some two decades ago in San Francisco I was a *Revolutionary Socialist* in San Francisco and Amy Landover, a Yale Law graduate was a mentor and friend to me. I read Antonio Gramsci's *The Prison Notebooks* in that time, as well as Howard Zinn's *A People's History of the United States*. We, in International Socialist Organisation, had exclusive first photographs of Abu Ghraib torture, and I sold newspapers for

\$1 on Valencia Street and Mission on weekends with the expose. I have since rethought my political ideas and am much more universal natural rights oriented *globally*. That is my politics now. But I am very serious about politics, and do not fall neatly in the constraints of Liberals and Conservatives in America. Now you can pretend all you want that my dealings with Bill Gates is hallucinatory but it is not. He has applied power against me violating all national and international Human Rights, even harming my body meta with US War meta that is strictly against Geneva Conventions. So I am not going to actually agree with your assessment that I am hallucinating but I will comply with your demands and see a mental health professional. Then I will consider this a serious political matter I was destined to address in America, the mistreatment and repression of non-white people in America by government.

#### 10. HERE I FOUND MY COPY FINALLY UNDER STACKS

Now I will show you my own copy of Robert Justin Goldstein's *Political Repression In America* after I dust it off.

You see, I don't want you to get the idea that I am just making things up to get rid of your attention. I am a gentleman, and I am an *honest* gentleman who takes pride in my truth.

You see, when you take a silly unrealistic poster of mine and threaten to jail me and ask me to go through mental health loops, that is *political repression*. It is political repression that is quite overt to me. Because the claim of threat is not actually *credible*. And yet you thought that you had sufficient evidence to storm

my peaceful existence for an absurdity. That is the *essence of political repression*. Let's not talk about *Gestapo* because we're looking at FBI now.

# 11. YOU CLAIM THAT I REPRESENT A THREAT TO BILL GATES PHYSICALLY BUT THE EVIDENCE IS THIN HERE

For me an FBI officer is not my enemy; he's doing his job. He believed that it was right for *federal law enforcement* to storm my peaceful abode and accuse me of possible criminal wrongdoing that might land me in federal incarceration. But where is the reasonableness of this decision from a poster of Bill Gates with a red bull's eye on his head and various whispers not to someone else but *Zulf* – that is me – to just pull the trigger. I will easily claim that the trigger was a political campaign to sabotage his reputation and assassinate his *Character* and not his physical body. I have never owned a firearm in my life and was shot at 11 before I arrived in America. How does any rational organisation determine a threat *grave enough from this* to storm my home and embarrass me in front of my family members as though I were an actual assassin with a record, and lower their esteem for me at 49? How is this justified *except by systematic racial bias at the institutional level by United States Government who will ignore massive destructive use of illegitimate power by Bill Gates and protecting a racial criminal's interest and instead harming my life?* That is the question that is on my mind, so I will chalk this down as *political repression in America*. Bill Gates is a well-known public figure who lives far away from Texas. It is not credible that I posed any actual threat to him.

# 12. I WILL GIVE YOU MY ASSESSMENT

(a) Asking me to go through the mental health circuit now at 49 when I have been fighting to get \$620 million blockaded by Bill Gates owed to me by David E. Shaw and ECB President Christine Lagarde is totally destructive to my life and I may never recover. It is thoroughly irresponsible to my mother who is bedridden and in the twilight of her life. The pretense of care for my well-being here is not convincing. I believe FBI is following a tradition of disrupting and destroying non-white American lives in order to serve the interests of malevolent white supremacist criminals like Bill Gates. Here I don't see any enthusiasm by FBI to arrest Bill Gates but a great deal of enthusiasm to destroy my future prospects just as I am being able to impress Stanford Mathematics with successful completion of three or more Ph.D. Qualls in several weeks and gaining traction for my Four-Sphere Theory which is work of extraordinary genius surpassing that of Albert Einstein and Erwin Schroedinger in fundamental physics. What motive could I construe when they take a funny poster and hold it as evidence of incredible threat to life of Bill Gates who has \$131 billion of security protecting him in a faraway state while I am on disability income in Allen Texas isolated from my comfort zones in San Francisco and New York? The motive can only be that they do not serve my interests at all.

# 13. I WILL MARK BEING COERCED TO MENTAL HEALTH CIRCUIT AS GRIEVOUS DESTRUCTIVE DAMAGE TO MY AMERICAN DREAM AND LIFE

FBI should be very very clear that asking me to go through mental health circuit now, despite my disability I will consider not as concern for my health but as grievous destructive damage to my life because I had never reached Managing Director

*level in Finance, I faced discrimination by Wall Street for my Muslim name thanks to United States propagating lies about who did 9/11 – it was Israel’s Mossad and no Muslim hijackers were involved at all (see [1]– and furthermore I did not know that Daniel Strock had hurt my path in Finance even though he was an academic and not in Finance himself. I do not consider this intrusion in my life lightly at all, and will consider it direct and deliberate and intentional harm to my life.*
