

OPEN LETTER TO BILL GATES NOVEMBER 25 2021

ZULFIKAR MOINUDDIN AHMED

Dear Bill Gates,

I will attempt to use simpler English to adequately address your SAT score of 1290 and lack of college education. You see, Bill Gates, your assumption that I, a man unable to receive his legitimate income despite being a Finance professional from David E. Shaw (around \$120 million) and from President of European Central Bank Christine Lagared (around \$500 million) due to your criminal obstructions, am able to *lead* Europeans and others in United Nations is quite irrational.

Let me take you back to the formation of the United Nations. This happened after the Allies won the Second World War in San Francisco, my eternal spiritual home. It was more than 75 years ago, so I was not there, which is a pity. The great powers of the day formed the organisation. Why would someone like me, an Asian-American against whom you plotted murder and destruction, starved me of my money and denied me my American Dream, whose mother is sick and who is living in penury in Allen Texas, in someone else's house, be able to lead the people in United Nations?

Does this make any sense? How could I, who have no authority or experience working at all in the United Nations, a victim of your horrible abominable evil vile heinous savage murderous barbaric destructive crimes, be able to lead all the Europeans in United Nations? Is that even possible to contemplate? No, Bill Gates, these sorts of ideas are paranoid fantasies of an illiterate and not particularly bright boy such as yourself.

Thank you, ZULFIKAR MOINUDDIN AHMED
