

# PEOPLE EVERYWHERE HAVE SAME DISTRIBUTION ON RELIGIOUS LEADER INFLUENCE

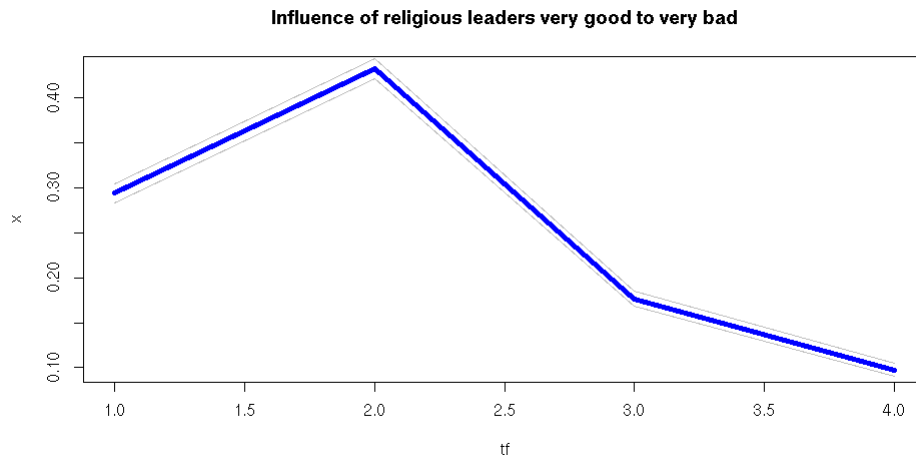

ZULFIKAR MOINUDDIN AHMED

The approval of religious leaders' influence in 44 countries showed remarkable stability in distribution.

	x	sx	tf
1	0.2938	0.0104	1
2	0.4322	0.0114	2
3	0.1764	0.0085	3
4	0.0976	0.0068	4

TABLE 1. Influence of religious leaders

A helpful graphical display shows the tight bounds around the means.

*Date:* April 14, 2021.

## 1. SURPRISE OF THE RESULT

This result is extremely unexpected, because the religions represented in the countries is widely varying and yet there is a stability in the distribution of opinions about their influence that is quite uncanny. We attribute this as well to Universal Human Nature feature.
