

## OPEN LETTER TO FBI FIELD OFFICERS AND FBI DIRECTOR

ZULFIKAR MOINUDDIN AHMED

I don't know where Bill Gates is physically. He is likely somewhere near the provincial backwaters of America, like Richmond Washington, near Seattle, boon-docks. I grew up in New York, and my first job was in 1995 at Lehman Brothers, and I worked then as a quant in Andrew Morton's group 10th floor of World Financial Center. I have worked in Manhattan for years, then I worked in South San Francisco, lived in Mission District, Guerrero and 14th Street, and for a brief while in Boston. I am an urban cat. I am stuck right now in Allen Texas, but I am not a suburban cat at all.

So today FBI came to me to tell me that a poster I made whispering to myself to pull the trigger on Bill Gates. He has been damaging my life by extraordinary and destructive exercise of power – US Industrial Power, US War Power, German War Power, to harm my ethnic Indian meta, my Finance career meta, blockading me from income, harming me in my sleep, and repeating 'Whites are superior. Whites are superior' and other racial slurs. The Medical team I agreed to see a doctor. I do not know what will come of it. The FBI Field Officer warned that the message I had sent out as a provocation for *his crimes against me* in my view, because I do not know this man from a can of tomato soup and he has taken it upon himself to randomly destroy my life and career and sabotage my earnings based on 'white right' to harm non-white people.

What I will attempt to do is something unusual. I will try to explain what physical laws can explain how it is *actually Bill Gates* doing these things rather than the ordinary response, that Bill Gates is not anywhere near Allen Texas, and therefore I am hallucinating.

This will be not very rigorous. You see, as my Four-Sphere Theory posits, the actual universe is not three spatial dimensional. Rather, the 'background of existence' is a four-dimensional sphere. Accept, please, that this is true. Suspend your disbelief for a while and humour me please.

So the four spatial dimensions are not the three that we are used to thinking as real plus an extra large dimension. Instead, *all four dimensions in the four-sphere are purely electromagnetic*. None of them match the three dimensions we experience in daily life.

Now the three dimensional universe, the one that we are familiar with is *completely emergent* in the static eternal homogenous four-sphere that is the 'background of existence' if you will. This is not a religious concept but a genuine physics concept. This concept occurred to me first in a loft in Williamsburg, after I was fired from Babel Research which was owned by Chris Thorpe, a Utah man who was my brother's roommate at Harvard. I had an epiphany then, and devoted many years of my life to developing my four-sphere theory even when my ex-advisor at MIT, Daniel Stroock, wanted nothing to do with it. That's fine, since I have

extensive experience in Industry in Science, Finance and things that are not pure Mathematics, even though I graduated with a prize-winning thesis and a magna cum laude from Princeton in 1995 with serious preparation for *pure Mathematics*. It's been around three decades since, and my quest for truth was successful. Feel free to read my papers on Four-Sphere Theory [3] for details.

Now I will speculate a bit but before, let me remind you that *anomalous rotational symmetries have been discovered by Dan Shechtman of Israel* from early 1980s and he won the Nobel Prize for discovery of so-called *quasi-crystals* in 2011. I protested in 2008 already loudly that these are not quasi-crystals but actual crystals. The discoveries were with 5, 8, 10, 12 fold rotational symmetries, and these are exactly the symmetries of crystals in four-spatial dimensions. Only these, and never 7, 9, 11 and other rotational symmetries possible for 6D crystals have ever been found. The theory of quasi-crystals is not the right answer here. They should give Dan Shechtman a prize for evidence for a large purely electromagnetic spatial dimension. Anyway, this is part of objective physical reality, a large electromagnetic fourth spatial dimension about which our current science knows little. And the reason is of course that the scientific tradition had resisted theories with *large extra dimensions*.

My first claim is that Bill Gates can affect my physical body and cause illness and death by means that are *four-dimensional* even though he does not have goons at my doorstep with all manner of guns and explosives and knives.

The FBI officer today is of the current scientific mindset and wants to know what *evidence* I can provide. Well it's the wrong age to provide evidence for four-dimensional activity. What Bill Gates calls his manipulation of various four-dimensional manipulation, most likely use of *magnetic monopole constructs* is *meta power*. I was an ordinary scientific empiricist and Atheist between 1979-2008 and knew nothing about actual four-dimensional activity by other words like 'power' and so on. So these things do have effects but the notions of evidence for them is not highly developed as I had worked on Four-Sphere Theory under great adversity for the decade 2008-2018 and without institutional support or funding. This is my workspace right now, January 7 2022 6:11 PM.

Now I know quite well that your viewpoint will be that I am hallucinating and that I have mental problems. I assure you that while there is a small chance for this, I am being accosted by Bill Gates power. He cut into my *Blood Meta* and Indian reps in UN Security Council considered and warned United States that when someone breaches another's blood meta at all, in India they suspect criminal intent. He is not white, and White Law forbids foray into a non-white man's blood meta or deep interior. Bill Gates is not only unconstrained in doing these things, but he is enormously destructive with intention to harm and destroy in these incursions. The United States Government ought to be taking him in for systematic murders that he has confessed in meta many times proudly. You might say, well, we don't

know what evidence can be brought forth. Well the evidence for these things do not even have instruments designed in the current age. They are four-dimensional *purely electromagnetic activity*. I don't want to get stuck in a circuit far from where I want to be, in San Francisco with funding from people like David E. Shaw and Christine Lagarde that want to fund me, but Bill Gates has used vile evil things like heavy meta to harm my body and such and United States Government has done nothing about this because you don't think this is real. Well I am extremely confident that it is real, and while it is true that I do not intend to go and shoot the little snot-nosed little bratty devious evil fuck, I will be honest I did. I won't because that's not what I do. But I wish I had blown off his miserable wretched face. I would have done the human race a great favour.

Instead, I will have to trust United States Government who will nitpick on my edgy posters, while I am the good guy trying to get some money and pursue my American Dream and he's the baddie. Why don't you arrest *Bill Gates* and ask *Bill Gates* to see a mental health professional, or just electric chair *Bill Gates* instead of annoying Zulf?

Thanks,

Zulfikar Moinuddin Ahmed

PS The particular strategy Bill Gates used among others is he found some way of putting a huge amount of US Industrial Power in my Deep Interior to mince my flesh using industrial power so that after a while from 'unknown causes' I lose body weight and shrivel and die. This is not a joke and I really do not want to go through mental health clinical medicine.

This is my public statement, and I will send this to Stanford and others for record. I don't want to wait to find out any proof. My life is threatened and I do not think your recommendations for mental health are doing me any good.

# 1. I WANT AN ALTERNATE PLAN THAN MENTAL HEALTH ASSISTANCE

I believe now from Madam Christine Lagarde consider – she is Jewish and did some deep interior considers – that I do not have a great deal of time to live. I do not want to spend the last days of my life talking to mental health professionals who do not know how to keep me alive with a real threat to my life from Bill Gates. Yes it is Bill Gates and not a hallucination, quite certainly so.

I need assistance from United Nations, India and China and Japan to do considers in my Deep Interior and detect and neutralise Bill Gates Industrial power, and mend my flesh meta immediately. I am indeed a rational man, and do not want to die talking to people who are not aware of the grave threat to my life by esoteric power magic.
