

## **ZULF REQUESTS A RECKONING FOR HARM TO ME BETWEEN JULY 2020 AND NOVEMBER 17 2021**

ZULFIKAR MOINUDDIN AHMED

I would like to request someone who is fair and unbiased between myself and Bill Gates to do a full consider of all harm done to me by Bill Gates between July 2020 and November 17 2021. Then I would like a full report of all harm and their corresponding penalties for Bill Gates and United States Executive Branch. Then I would like reconciliation of this harm by United States Law.

I am unfortunately not expert in meta enough to determine this myself. I want Defense Secretary Lloyd Austin to please do this consider as well as United Nations. I do not believe that it serves the United States of America at all to have lapses in fair treatment of an American and all manner of crimes without any reconciliation. I am not Jewish in the old way, and do not believe in 'eye for an eye' but I also do not believe that strong failures of justice in America can have positive consequences for the Nation.

### **1. REQUEST FOR MULTI-DISCIPLINARY FORMAL CONSIDER FOR UNITED STATES GOVERNMENT ARCHIVES**

The various power considers of Bill Gates in my Blood Meta, Personal Meta, Deep Interior are historically unprecedented. I would like thorough and professional expert considers to examine all aspects of Bill Gates considers, their effects, their legality, their historical precedents and others with experts in criminal justice, in military affairs, American Law, Social Science. This is an opportunity for the United States Government to learn something that will assist I believe in improving our Government oversight of Natural Rights, in prevention of harm to Americans in the future and will eventually help me recover from the damage to my life as well.

Now I have heard Bill Gates in meta claim all manner of 'White Right' to do some of these things. I was certain all along that since what he was doing was a grave violation of my Natural Rights, and US Declaration Preamble stated quite clearly that the purpose of US Government is to secure Natural Rights, that there cannot be a Constitutional Law in the nation that can allow any such right at all. I do not know where Bill Gates came up with this fiction of 'White Right to Conquest'. I know that after the Second World War, there was a total ban on 'right of conquest' with founding of United Nations and international law.

Now I speculate that since Bill Gates was born and raised in provincial Seattle, he was influenced by various hick illiterate elements who had perhaps given him fantastic ideas, or that he creatively invented 'white right of conquest' in order to justify his own savage, brutal, destructive and murderous criminal tendencies.

---

*Date:* November 17, 2021.

I am asking for a formal and multi-disciplinary consider because I want in the United States Government Historical Archives expert record of this unique phenomenon that is objective, complete, professional and unbiased and not corrupted by rumours and misunderstandings and petty ethnic one-upmanship. I am a serious man with a Princeton education and decades of professional experience in American Industry. I do not want third rate work here by US Government.

## 2. UNITED STATES GOVERNMENT SERVES INTERESTS OF 330 MILLION

I just realised that although I was taking notes and making plans for my own interests and doing various sorts of campaigns to destroy and annihilate Bill Gates, that the sort of things Bill Gates engaged in that provoked my retaliation is of independent interest as a unique phenomenon for the United States Government Archives. Now since United States Government has to serve interests of 330 million people and not only my interests or Bill Gates interests, they will necessarily fail in their mission if they do not have independent considerations that are unbiased by my views and writings and the various things Bill Gates has done over the past five decades with them.

This is why I am asking for the consider. I of course allege that he is a con man and a charlatan and everything he has ever told the United States Government is a lie. But I do not think that this charge can be evaluated without independent expert considers. Now United States Government is a resource-rich organisation not just financially but also with access to top experts in various fields and so I think it best that they form a multi-disciplinary team who are not corrupted by Bill Gates' continuous lies for four decades and can assess the situation of his activity in my meta with objective distance.

## 3. USG 4 PLEASE FOCUS ON OBSERVATION AND RECORD IN US GOVERNMENT ARCHIVES

I have a lot of experience in professional situations. It is human nature to get distracted from a mission objective. Your mission is just to record all observations and everything you find for written Archives of US Government and not to get distracted. The goal is to ensure that your observations and discoveries are complete and there is actual significant record in US Government Archives of all things you find. Please keep focus on this. Don't get distracted by every possible thing under the sun. That is normal but you need to keep to mission objectives.

## 4. YOU FOUND SOMETHING WAS DELIBERATELY BROKEN

USG 4 just record all things that were deliberately broken thoroughly by Bill Gates in my meta. It does not matter what the legality of such things are for your mission. You have to just have a total record of all things found, items broken, and such and record them and put them in National Government Archives with date and time and so on. Let other groups handle other issues. You are not doing litigation or law enforcement in this mission.

## 5. REPUBLICS OF LAW WITH MASSIVE POPULATIONS CANNOT TOLERATE BAD RECORDS

You see, if we were a dictatorship with an oligarchy ruling over us with iron fist by arbitrary whim, then maybe you don't have to be careful with records.

But in a Democratic Republic accurate trustworthy records that are not tampered and corrupted and that are conveniently archived is part of the necessary show. Without this, government will always fail to serve the interests of 330 million and the Republic is bound to wither and die. So this is essential to have any Republic that works. You need both accurate trustworthy records and you need transparent and easy access to information for all US Government Employees. You should limit all sorts of "Top Secret" claptrap. They are not for a Republic. They are for other sorts of spooky organisation. I can guarantee that if you continue to be spooky and secretive this Republic will be gone in a few decades. Accurate transparent government-wide information that is trustworthy is the blood in the vein of a living republic. Don't be shoddy on these things.

#### 6. IF AMERICAN GOVERNMENT DOES NOT HAVE TRANSPARENT ACCESS ARCHIVE SYSTEM I CAN DO THAT

I don't work for free on new innovations in technology and I am not cheap. All these Data Warehousing and Cloud Storage are not good enough for what American Government needs. If you want something here, we can talk. Basically Relational Databases are worthless. You want JSON Databases like MongoDB on large Mesos Cluster of high performance servers and you need some great AI too for arbitrary people's ability to comprehend according to their training and specialty the Archival Data. That's a big project and I won't promise this but I worked on Document Databases in 1997 with Robert Reich. I can do that sort of thing for the entire United States Government.

#### 7. USG 4 DISCOVERY: BILL GATES BELIEVES HE CAN ALTER OTHER PEOPLE'S PAST CAREER WITH META POWER

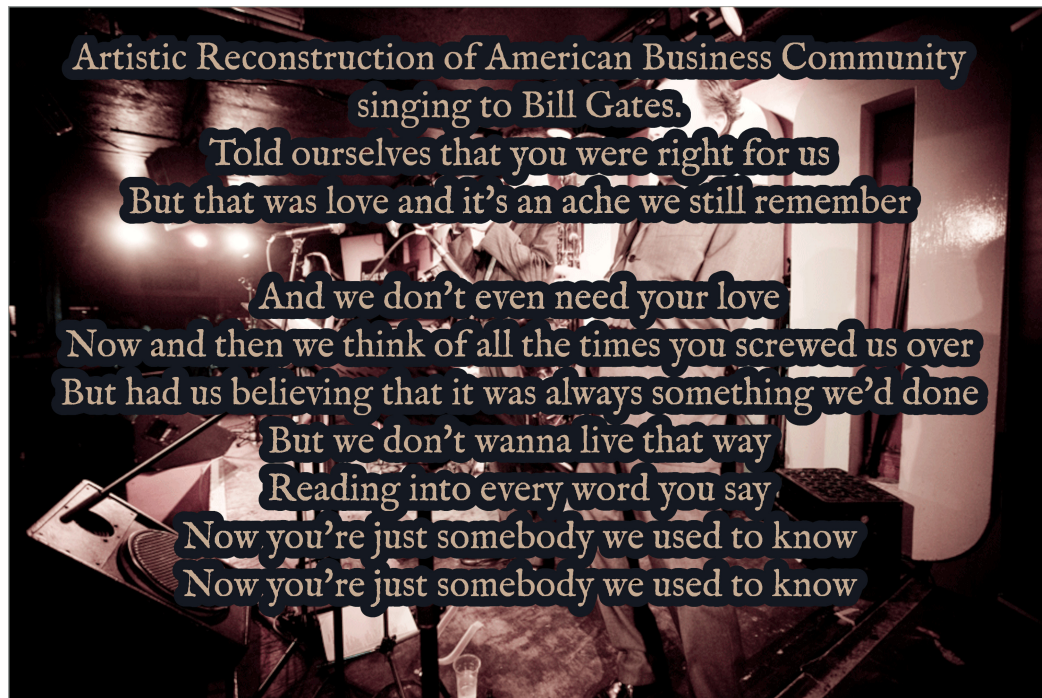

USG 4 discovers that Bill Gates believes that he can alter other people's past career with meta power. I held a senior position as the sole senior software architect for Robert Reich in 1997. I did the backend in C++ for Blue Cross and Blue Shield in the startup where only Robert Reich and I were doing work. Now more than 20 years later Bill Gates tells USG 4 "I don't want this guy to do technology". Well if he really cared about whether I can do technology, he is a little late, don't you think? He should have time-travelled back to 1997 and killed me in the past.

#### 8. AMERICAN BUSINESS COMMUNITY'S SONG TO BILL GATES

Now and then we think of when we were together  
Like when you said you felt so happy you could die  
Told ourselves that you were right for us  
But felt so lonely in your company  
But that was love and it's an ache we still remember  
You can get addicted to a certain kind of sadness  
Like resignation to the end, always the end  
So when we found that we could not make sense  
Well, you said that we would still be friends  
But we'll admit that we were glad it was over  
But you didn't have to cut us off  
Make out like it never happened and that we were nothing  
And we don't even need your love

But you treat us like strangers and that feels so rough  
No, you didn't have to stoop so low  
Have your friends collect your records  
And then change your number  
We guess that we don't need that though  
Now you're just somebody that we used to know  
Now you're just somebody that we used to know  
Now you're just somebody that we used to know  
Now and then, we think of all the times you screwed us over  
But had us believing it was always something that we'd done  
But we don't wanna live that way  
Reading into every word you say  
You said that you could let it go  
And we wouldn't catch, you hung up on  
Somebody that you used to know  
But you didn't have to cut us off  
Make out like it never happened and that we were nothing  
And we don't even need your love  
But you treat us like strangers and that feels so rough  
And you didn't have to stoop so low  
Have your friends collect your records  
And then change your number  
We guess that we don't need that though  
Now you're just somebody that we used to know  
Somebody (we used to know)  
Somebody (Now you're just somebody that we used to know)  
Somebody (we used to know)  
Somebody (Now you're just somebody that we used to know)  
Somebody

With apologies to Gotye for a great song.

Now let me explain the reasoning here. The American Business Community evolved from the first colonisation in 1492. By early nineteenth century it was already well established, as the foundational laws of America, civil liberties and natural rights security led to a situation that allowed commerce not to be sabotaged by feudal privileges. The Industrial Revolution was even more successful in America than its birth in England. American Business Community thus has even longer history and tradition than the Republic itself. Rationality is prized in the community, as well as ethical norms. There has always been predatory behaviour and unsavory aspects to American business, but the American Business Community by and large, especially because of institutions like Harvard and Stanford and Chicago Business Schools, been relatively enlightened.

It is almost certain that regardless of the unlawful and criminal nature of Bill Gates misbehaviour with me, the belief that he could use his power to change the past of my career would be considered a grave and dangerous surprise to the American Business Community. They are used to assuming that businessmen are rational. Thus when not Zulf but US Government finds that Bill Gates planned to change Zulf's past in order to suppress or change my senior positions in technology in 1996-2000, they will distance themselves.
