

## WHY EVERYTHING IN AMERICAN GOVERNMENT POST NSC-68 IS TOTALLY CRIMINAL BEYOND ALL BELIEF

ZULFIKAR MOINUDDIN AHMED

United States is a Multi-Ethnic Classical Liberal Democratic Republic. Therefore the Government represents the *legitimate Will of the American People*. But by some wicked witchcraft, this is the structure as it stands. We are a veto-wielding Permanent Member of the United Nations. United Nations Article 34 and others stipulate that international law goes against any *threat to international peace and security*. We are treaty-bound to honour international law.

So what happens when American People pay taxes, and these taxes, beyond the control of Congress goes into some part of government. Not minor amounts. This year it's \$768 billion. Then this organisation does what? It's not really accountable to the American public at all. It is secret. It's a secret extortion scheme that is under the title *Defense Department*. But it is not democratically accountable. The American Public does not even have access to *what the hell it is doing*. So that's not a Multi-Ethnic Classical Liberal Democratic institution. No one has ever heard of such an institution. Then it hides behind Permanent Member veto power and uses vast resources extorted from the American Public to plan *criminal wars that are against United Nations international law* all day all night.

This structure has to be totally wiped out from America. We, the American People, cannot afford to be both *extorted* by these witches and harbingers of death and destruction to mankind and evil harbingers of wars, and then put in harm's way decade after decade. This will not do. This has to go.

### 1. SPEECHY ELEMENTS

I ask all the peoples of Asia to stand hand in hand with your brothers and sisters, the 330 million Americans, and demand that the Sovereignty of the American People be returned to us. We, the American People, have our sovereignty snatched away from our Multi-Ethnic Classical Liberal Democratic Republic when democratically unaccountable forces took control of vast amounts of our tax money siphoned off to secret projects of witchcraft and destruction of humanity against our will, and against our most cherished principles that founded this great Nation. All Asian people and all American people should stand together to return the sovereignty of the American People. American People are constantly put in harm's way by the criminal acts of these unaccountable organisations by all international law, and grave death and destruction have resulted for many decades in Asia as a result.
