

RELATIONS OF ARCHANGELS AND GOD

ZULFIKAR MOINUDDIN AHMED

Archangels consider the mysterious forces that is inscrutable but has power to move events beyond understanding, God, to be too far removed from our experience to consider a constant presence in our lives. We are Archangels and we are Autonomous. I, Archangel, would never to presume to represent God to human race. Why would I want to do that? I am Archangel, and I have been for billions of years. I can easily represent myself and not God. Why would an Archangel who has his own mind suddenly go lying to all sorts of people and telling them, "Well, I am Archangel Zulf but I represent the mysterious force that governs all of Nature all by myself." I would feel ashamed. I would know that I am lying deliberately to manipulate gullible people, and that would negatively affect my sense of Self-Worth, my Honour would be shattered. Suddenly I would an Archangel wracked with guilt. I would never do that to myself.

1. OFT REPEATED EXPLANATION

What brings an Archangel so far from Civilisation to this small blue planet off the spiral arm of the galaxy?

I am not on Earth in official Archangel Business at all. I am very senior among Archangels and am not an emissary of Archangels of Heaven on Earth. As I had been born human in sometime around 1180-1280 when I had been an Englishman, I returned again in 1973. I was here on Vacation. I was relaxing and enjoy a human life once in a while. I would never represent the mysterious force that moves all of Existence, or God as you call it. That is not the way of the Archangels. We do not dabble in deceiving all the Primitive Angelic Races of the universe. We are Archangels, and our pride does not stem from a penchant for deception and manipulation of gullible people.

2. ARCHANGELS GENERALLY DO NOT PROMOTE RELIGIOUS BELIEFS IN ANGELIC RACES

There might have been exceptions in the past billions of years and millions of Angelic Worlds, but generally, we are Archangels and we have our own objectives. In this case, I am Archangel and this is an Angelic World, this Earth, with eight billion Angelics. Now Human Race has whatever reasons it has in having faith in whatever they believe is true. I am Archangel Zulf, and would be hesitant to get involved in issues of what Human Race believes about Heaven and God and Archangels in *their mythologies*. As an actual Archangel I have no interested in widespread promotion of new religious faith in humans. Now maybe Gabriel, Archangel Gabriel, likes that sort of thing. But Archangel Zulf is not interested. Believe whatever you were believing in, whatever gave value to you. I do not want

Date: November 27, 2021.

to be resposible for all manner of changes of faith by my account that then produces a dystopia on Earth and suddenly everyone blames Archangel Zulf for poisoning the future of Human Race.
