

## **ZULF'S IDEA OF POSSIBLE WAY OF ENSURING MY NATURAL RIGHTS WORLD ORDER**

ZULFIKAR MOINUDDIN AHMED

You see, United Nations, what is really necessary I would suggest is taking a nice bare bodkin, a knife going to every white son of a bitch in American Government, hold it menacingly with wild red eyes and say, so listen, either you will deliver natural rights and stop these wars you are still preparing in Asia, ah the Tranquil Beautiful Asia, or I will turn you into soprano. Do you understand?

Now I am such a nice gentleman, so nice, and warm and polite. I really am not the right sort of person to do that to 1.4 million people. So that's the basic idea, because these white supremacist types are really quite ubiquitous in American Government plotting Asian Manifest Destiny.

Now who wants to do some rehearsal for this. You hold the knife menacingly moving it around in a threatening way with red bloodshot eyes to 1.4 million whites in American government and then threaten to turn them into soprano unless they provide natural rights to 330 million and freeze all Asian Manifest Destiny War Plans. Then I use whatever guile or blackmail to France, Germany, and England to drop NATO and America and ally with Russia, China, and Japan for Eurasian Defense and agree with the various bad boys who threatened the whites in American Government.

It could work.
