

PENTAGON DON'T LOSE YOUR DAY JOBS TO DO PSYCHOLOGY OK STICK TO BLOWING THINGS UP

ZULFIKAR MOINUDDIN AHMED

I have never in my life met people who are more incompetent in psychology than you. What do you mean 'jovial' exactly? Do you think constantly emailing everyone saying "Oh American Government owes it to me to ensure I get \$620 million of earned money and Bill Gates blockaded it and that's my American Dream. And I am living in my aunt's house being abused verbally and demeaned every day and my mom is dying." You then decide, "We are psychological geniuses. The man is just so jovial!" His mom is sick and dying far from him. He does not have his own pad and is blocked from getting \$620 million in earning and he wants to do something in San Francisco but is stuck being denigrated everyday but since we are psychological geniuses, we definitely think he is jovial.

Well don't lose your day jobs ok? Stick to blowing things up, destroying countries by blaming things for things they did not do, like Gulf of Tonkin and so on. You have no talent in psychology.

1. LEGAL DISCLAIMER: NONE OF MY NOTES AND MESSAGES ARE MADE IN JEST

I am not a jester, Pentagon. My sister committed suicide in 2017. My uncle, my mom's brother died right in this house, well a nearby hospital in 2018 and his ex-wife and daughter who live in London did not even visit to say goodbye. I have the responsibility of getting money to my family and I am a Finance professional and my money of \$620 million is blockaded by Bill Gates and he cut into my Deep Interior. Nothing I messaged people and wrote in my notes and archived are meant in jest. You are totally incompetent at psychology. No wonder you keep having disastrous losses in Korea, Vietnam, Iraq got taken over more by Iran than your people, and Afghanistan. It's because you don't know how bad you are at psychology. If you are laughing, that's your psychology, not mine.
