

ZULF RUSHES TO INSTITUTE GLOBAL K-12 EDUCATION ON ZULF'S VIRTUE-EUDAIMONIA THEORY

ZULFIKAR MOINUDDIN AHMED

I, Zulfikar Moinuddin Ahmed, the great immortal genius have identified the Virtue Spectrum that was impossible for Aristotle to fathom. His *Moral* virtue-eudaimonia theory is quite immortal genius, as I have validated. But he was unable to see beyond his limitations. But thanks to tremendous immortal insight of Avicenna, and the work of great people including Helen Fisher and Raja Halwani and Bartels and Zeki and others, I am able to produce the *Final Codebook Of Universal Human Genetic Heritage*, the virtues that lead to highest life satisfaction for all people everywhere.

And now, I want United Nations to immediately implement Virtue education across the continents to all children of the world. This will transition the Human Race to a higher plateau in life satisfaction.

I, Zulfikar Moinuddin Ahmed, Archangel of Heaven, have given my beloved people Heaven's gift to you. And I alas cannot implement these programs. Rejoice, my people, and United Nations can you do this right away?
