

THE MORAL QUALITIES OF AN ARCHANGEL FROM SELF-OBSERVATION

ZULFIKAR MOINUDDIN AHMED

It is my faith that I am an Archangel Soul who was born on Earth. In my dreams in mid-thirties I saw other worlds in which I have lived. I did not know this till later. I was an Atheist till roughly 2007-2008. I was science oriented. I was not religious at all.

My record is not perfectly clean. As a graduate student at Columbia I have shoplifted a candy bar from the supermarket on 110th Street near Tom's Diner. This was 1995-1997 perhaps. Then once again in 2008 when I was homeless I just walked in and shoplifted a pack of tarot cards from Barnes & Nobles on 5th Avenue. Besides these and sleeping on a park bench after hours for which I was dragged to jail for a couple of nights, I have no official crimes. I also threatened Sheldon Adelson for horrible crucifixion with his tongue cut out and gasoline burning. I apologised to Jewish people for this later. He died of natural causes later. It was a reaction to his push to use nuclear weapons against Iran after I found out in The Nation that he was promoting racial supremacy theories in Israel. The FBI and California police interrogated me for it. That was a great success, for Iran was never attacked by nuclear weapons afterward. I am in the end proud of that. Sheldon Adelson could have pushed for it during Trump Administration. I am not exactly pro-Iran but I am convinced that nuclear weapons are products of Hell and do not want them on Earth either. I am apologetic that I was offensive to Jewish people but not sorry enough not to mark my great achievement on nuclear use in Iran. And I never harmed him. Sheldon Adelson died of natural causes, which is a relief because Bill Gates needs to be destroyed and obliterated physically and if Sheldon Adelson were alive then he would have something to use against me.

So certainly an Archangel's record is not clean morally. But it's not particularly bad. You will find huge numbers of murders by Bill Gates. I would not have done the things I said I would do to Sheldon Adelson anyway. The purpose was, in hindsight, to scare the bejeezus out of him and distract him from plans to use nuclear weapons on Iran. I succeeded and I am pleased with that.

1. PROSOCIAL ACTIVITY

Gave free lodging to Jason Potvin and gave him my own bed when I had a loft in Williamsburg in 2007-2008. Then I periodically woke early in the morning and collected Starbucks sandwiches thrown out for expiration but still good and distributed to tired and sleep deprived homeless in downtown New York. I sent \$500 to Houston on disability money living in aunt's house some years ago. I expect my financial philanthropy exceeds Bill Gates on percent of total wealth.

Date: November 7, 2021.

I want to assure my readers that these elementary prosocial things are natural and not Archangel-oriented. My work on Universal Human Moral Nature to establish single human Nature and Angelic Nature of Man is more Archangel oriented.
