

**OPEN LETTER TO EUROPEANS AT UNITED NATIONS
NOVEMBER 25 2021**

ZULFIKAR MOINUDDIN AHMED

Dear Europeans in United Nations,

I appreciate your various interests. I normally always mention my European ex-lover Sine Jensen, a Dane, to make myself more comfortable for Europeans but she has a husband and child now so I don't want her pestered with irrelevant issues of her past love life.

Now let's get to business. White people in American Government might have always been corrupt and did not think it worth their while to fulfill their purpose that is explicitly written in United States Declaration of Independence Preamble, such as we believe that these truths are self-evident, that all men are created equal, that they are endowed by their Creator certain natural rights, among which are Life, Liberty, and Pursuit of Happiness, and governments are instituted among men to secure these rights.

These white people have difficult time understanding complicated things, so be patient and use many graphical illustrations. If you decide to ask people of Iraq the descendents of Mesopotamians who invented rule of law and criminal law, to illustrate why civilisation does require effort to enforce criminal laws, do make it colourful and graphical, simple and easy to understand, and ensure that multi-media is in *small sound bites* because their attention span is quite small. They are American white people. They are easily distracted by colourful things and more curious about all sorts of things in Baywatch and Melrose Place than, "You are paid to enforce criminal law against murderers." They will get very bored and uninterested if you don't use enticement.

Now Europe has various good chocolate and cheeses. You might find that useful with these people. Remember, their attention span is very short, and they have difficulties with understanding why people get paid to do things they might not like to do.

Date: November 25, 2021.
