

**ZULF SIDES WITH UNIVERSAL NATURAL RIGHTS
PROTECTION DO NOT CARE ABOUT FEMINIST POLITICS**

ZULFIKAR MOINUDDIN AHMED

I find feminists immature and irritating. I believe in Universal Natural Rights Security. I don't care too much about feminist political ideology all that much. Women have Natural Rights same as men, and they ought to be secured. They are badly insecure today. Women ought not have their natural rights violated; neither should men. Men and women have been having living together for millions of years of evolution. I don't think feminist ideas are all that valuable.
