

OK PENTAGON TOP BRASS YOU HAVE FIVE DAYS TO KILL BILL GATES

ZULFIKAR MOINUDDIN AHMED

You mentioned green lighting Bill Gates to kill me. That puts my own moral code into action. Now you have five days to kill Bill Gates. Any more delay and I will automatically assume that you green lighted him. In that case you have my vow and promise that I will slaughter top brass of Pentagon and your children too eventually. You can do what you want with this but Zulf keeps his word eventually.

Five days. No more. I might do it in a week or a decade but in five days if Bill Gates is still alive, this is not international law. This is Zulf's honour code. If you green light Bill Gates, you don't have five days and I will immediately put it down as a vow to keep.

1. YOU WANT TO BET THAT I CAN DO IT WITHOUT EVEN BREAKING ANY LAW?

You see you were tasked to secure my American Natural Rights which government is Constitutionally mandated. I could get you court martialled because Bill Gates used US War meta against my body, get you out of US Government protection and ask some foreign powers to covertly kill you and your family and if it suits their aims, they could do it because you will be disgraced already amid big scandal. That's just one way. And I won't deny it and no one will believe me. You want to play cat and mouse with Zulf? Go ahead make my day.

2. PENTAGON I AM AN ARISTOCRAT OF THREE THOUSAND YEARS

How many of your top brass has Aristocratic Blood for three thousand years? Do you understand what you are dealing with here? I am an Aristocrat of three thousand years. Do you think I would go sneaking around behind bushes if I wanted to kill the top brass of Pentagon and your families? Obviously not. I am a law-abiding American. I will use completely legal means, drag you through the mud and then kill you with just a little bit of creative rhetoric at the right capitals. We're not exactly Saudi Crown types. Our Aristocracy starts long before England had any literacy. What do you take me for?

3. PENTAGON'S "PRAGMATISM" IS PURE CRIMINAL STATE AFFAIR

Pentagon literally said in meta "Oh he's quite damaged. In these cases we green light Bill Gates killing him". Let's think about this. Constitutional mandate (from US Declaration Preamble) says that Governments are instituted to secure Natural Rights. So Pentagon top brass, being government officials are supposed to secure my Natural Rights. Instead they say it's "pragmatic" to let Bill Gates, who plotted my murder to kill me. This means by their understanding of American

Date: November 20, 2021.

Laws and justice, anyone can almost kill anyone else in America, and they can call up Pentagon top brass and say, "Hey Pentagon top brass, this guy is almost dead. Can you green light his death please?" And they will say, "Go ahead. That's pragmatic".

Are these criminals seriously in charge of our military?

4. PENTAGON'S REASONING FOR WHY THEY DID NOT WANT TO KILL BILL GATES

US Executive Whites did not want to deal with Bill Gates and punted the killing Bill Gates to Pentagon. Pentagon did not do anything because, and this is serious not a joke, "the victim is not powerful enough to hurt us so we did not think it was worth acting on the US Executive order".

Are we in a Multi-Ethnic Classical Liberal Democratic Republic? Or are we in the jungles of Borneo over here? Let me repeat their reasoning when they had been tasked to kill a murderer. "The victim is not powerful enough to hurt us so we did not think it was worth acting on the US Executive order".

I won't make any frivolous remarks here and try to explain in patient terms – since my life is endangered – to the Pentagon.

You see, Pentagon, United States is a Multi-Ethnic Classical Liberal Democratic Republic. Let's go slow because you have a lot to learn here. I won't consult my high school texts on American Government and American History AP. I will try to water it down so Pentagon top brass understands.

So if you open the text of US Declaration of Independence, right in the top few paragraphs you will see that it says that *governments* are instituted among men to secure natural rights. The government has certain powers, including power to kill people, that are taken away from the population and given to the government. With this power, governments reduce *criminality* in the population. That's *c-r-i-m-i-n-a-l-i-t-y*. Very good. There's a nice symbol for what is known as *justice* for Republics. It's a lady holding a balance and a sword, blindfolded. I'll show you a picture in a bit. This represents the government using the *sword* – ok I don't have to explain that at least. You use the sword without bias, that's represented by the *blindfold*. Then when one of the guys is a murderer, regardless of their power, and other guy is the victim of the murderer, the state punishes the guy who is the murderer.

Sometimes the murderer has more power to harm the state forces. For example, when a guy with a shotgun threatens or shoots at a seven eleven clerk, the guy with the shotgun, the *murderer* has power and the victim, the seven eleven clerk, does not have power to hurt government forces. It is usually considered miscarriage of justice when the cops decide that because the murderer has more power than the victim, that the cops ought to let him go ahead and shoot and kill the seven eleven clerk.

Does that all make sense, Pentagon top brass. Now make like a tree and kill the murderer Bill Gates please. Ok? Email me if you need more help.
