

**PENTAGON IMMEDIATELY PREPARE TO PHYSICALLY KILL  
BILL GATES WITH GUNS AND BOMBS AND DRONES**

Pentagon, you are fools if you do not have some method to kill Bill Gates *physically* with guns, bombs, drones, Navy Seals, or whatever. Do not disregard this instruction. I will certainly face death from what he has done already but I can guarantee to you that the things he has done will have done so much damage to countries and peoples we are not at war with and who have not harmed us at all that United States Government will literally be raped for 20 years for allowing all sorts of horrible destruction to take place in peacetime with no provocation.

Why don't you kill him physically as soon as possible. He's gone mad. He keeps repeating "Adore me" and so on while my thoughts are that only ghosts will adore you after you are dead. But that does not matter. United States of America should be respectful to countries we are not at war with. The gunslinging days are far gone. There are international laws. Kill him with physical instruments. Delay at your peril. I have been asking you to kill him physically for a long time. United States just lost a war in Afghanistan. You should not be so cavalier with losing friends in Asia. Kill this man Bill Gates. He is not worth keeping alive.
