

**JUNE 12 2021:ZULF TIRES OF BILL GATES' SHABBY
TRIBALIST RHETORIC**

ZULFIKAR MOINUDDIN AHMED

Bill Gates, I tire of your shabby tribalist rhetoric, for we are Republic Spirits, and we are not amused by primitive tribal drivel. Even Nubians in Rome were far more sophisticated and addressed the Republic with more elevated and far less primitive and tribalist diction. We are vast, and rise above the primitive ethnic tribalisms that are suitable not even in a small polis, let alone a great Republic. Your provinciality shows itself clearly, Bill Gates, and it is rather unfortunate that the education we could afford you was ineffective. You see around two millenia ago, my own ancestors were in a similar mindset; they were tribalist. They were of course more sophisticated in diplomacy than other tribes than you seem to possess, but nevertheless they were unable to rise above their own tribal allegiances. You are of course literally malevolent and have genocidal tendencies towards other tribes than your own, as you have poisoned so many of my Beloved People, I mean of course the Great and Noble Human Race, with poison in their nutrition, something that even the North African Trojans and Phoenicians did not dabble in so long ago against Athens. We are patient, Bill Gates, but our patience does not extend to grave crimes that are an abomination to the sense of justice in any great Republic. You will surely have to pay with your life for your crimes against me.

Thanks, ZULFIKAR MOINUDDIN AHMED
