

## WHITE PEOPLE LIKE BILL GATES ARE MUCH MORE LECHEROUS THAN ASIANS AND MUSLIMS

ZULFIKAR MOINUDDIN AHMED

Bill Gates is worried that I will be scoring a lot of white women. Right now I am quite in negotiation with my sweetheart Darina from Petersburg for marriage. I was a virgin till after I graduated from Princeton University in 1995. The paranoia that Bill Gates has about how dangerously sexual I am, and how interested I am in scoring white American women, does not emanate from me but from Bill Gates' own mind. Across America, there is a rise in intermarriages. New York Times has a great geographic distribution chart not long ago.

The distribution is uniform.

Let us address two separate issues here. First is the basic issue that people like Bill Gates who have invaded my deep interior and is causing great harm to me to prevent me from mating sexually with white American women are going against the grain as intermarriages are up across the United States almost uniformly.

Second is the more provocative point that it is and was the white man who was always more lecherous compared to the Asian and non-white men all along. In the 1915 D. W. Griffith film *The Birth of A Nation* or *The Clansmen* we have white actors with painted faces being lecherous with white women. This is a theme that has persisted for some centuries and extends to Arab men and Asian men and so

on. Here I will be intentionally provocative and argue that it is white men who have always been the most lecherous in the entire world all along. My tool will be an assumption of correlation of lechery level of ethnicity and the average rape rates for 100,000 per annum. This I will argue then shows that white men are now and always were much more lecherous than the Asian man, the Arab, and the Black man.

	Region	Rapes
1	Northern America	92.14
2	South America	39.00
3	Europe	35.09
4	Africa	17.04
5	Asia	15.55

There is very little question here that Asia and Africa are the least lecherous parts of the world, and we see immediately that it is the white man who is the most lecherous.
