

ZULF DEFINES AMERICAN EXCEPTIONALISM FOR THE ENTIRE WORLD DECEMBER 6 2021

ZULFIKAR MOINUDDIN AHMED

1. WHY IS A RACIAL MURDERER WITH TENS OF BILLION INVESTED IN WARS IN ASIA NOT BEING KILLED WHEN HE HARMS ZULF?

Dear World,

Do you ever stay up at night and wonder, hey, Zulf is American, he's an Asian-American of 34 years with legitimate Permanent Residency USCIS# 046-077-179 expiring 2031. Why is the United States Government not killing him for hundreds of Death Penalty worthy crimes? The answer is not white people are reluctant to take down white wealthy criminals. The answer is that United States Government is a den of white supremacist murderers and they don't see anything wrong with Bill Gates murdering someone who is American at all. They are a den of murderers protected by showin US Declaration of Independence Preamble which says "We Secure Natural Rights of Americans". Well they never did. And they're not doing it today. Do you understand world, this organisation, United States of America was never actually doing any of the things that it told the world it was doing because it has laws and Constitution for SHOW. It shows Constitution and Laws to people who ask and then it is dedicated to murder and mayhem and has no INTENTION to ever enforce or follow them.

It's at first a little odd because other countries are struggling to follow them. But this is AMERICAN EXCEPTIONALISM. America is Exceptional in this "Laws and Constitutions are Decoration to fool the gullible world" approach to nationhood.

Remarkable.

Thanks, ZULFIKAR MOINUDDIN AHMED USCIS# 046-077-179

2. WHY IS RICH WHITE BILL GATES NOT A LEADER?

Well in America, rich white people have the opportunity to be leaders easily. For some mystery of nature, Bill Gates is a born criminal murderer, a racial murderer to be exact. I hear that in the 1970s the American Government was permissive and just let him murder. That's not surprising, because American Exceptionalism is precisely to show one set of laws and constitutions and all that to the public and the world, and white people in the American Government are ever ready to permit their exceptions to white people, and probably consider it their duty. But this is a mystery of nature that is unfathomable. Who cares? I want the snot-nosed hick illiterate miserable wretch whacked for his insolence, simple as that.

Date: December 6, 2021.

3. THIS IS THE BEST DEFINITION OF AMERICAN EXCEPTIONALISM IN HISTORY

I am profoundly pleased with my great genius here. I was not attempting at innovation, but around the world living room gossip about *American Exceptionalism* will be my definition, and not what American nationalist meaning for these are. Now that's a global coup, and I will be remembered for this great day, December 6 2021 when my definition of American Exceptionalism is accepted by the nations of this world. Marvelous. Just marvelous.

4. UNIVERSAL NATURAL RIGHTS SECURITY IS THE BE-ALL AND END-ALL OF POLITICS ON EARTH

I am in a beautiful situation. You see, I truly believe all men are created equal with natural rights granted to them by the Creator, and that governments are instituted among men to secure these. That is part of United States Declaration of Independence of 1776. I believe this deeply, and when American Government goes against this, I am more strongly legitimately American than they are. Why is this beautiful? I might be badly damaged in my life but I am on *stronger* ground than the entire United States Government, and so the entire United States Government will disappear and vanish before I will fall. Now that is spectacular. When the United States Government is corrupt, they are weaker than Zulf, they are not *legitimate*. They might have all the power in the world and all the bullshit but I am literally infinitely stronger than they are because what can they do? If I huff and puff their house of cards will come crashing down. They can white supremacist dominate the Earth to timbunktu and still they will not withstand the strength of Zulf's stand. And that is remarkable spot to be in when the firmest foundations of a Republic are forgotten and so the generations produce layers of total grime and muck they called innovation and evolution. You can't perfume corruption of foundations enough to make it stand the test of time.
