EXPLAINS WHY BILL GATES RACIAL IDEAS ARE MUCH
WORSE THAN GERMAN NAZI RACIAL IDEAS**

Look, I am a Single Human Race cat, and I dismiss all racial superiority ideas. I don't like Nazi German Racial ideas any more than anyone else.

But you see, Bill Gates' White Racial Superiority ideas are literally ten times worse than Nazi German Racial ideas.

The main reason is that at least Nazis had Bonn, Berlin, Munich, Jena, cosmopolitan *cities* that had been intellectual centers in various ways for a long time. Their ra-ra was wrong but at least they were in urban cultural centers.

Now this *Bill Gates* is a peasant-born hick illiterate from boondocks frontier town in way out there in Pacific Northwest which is frankly a Cultural Sahara with no culture in thousands of miles in every direction. Some of the Pacific Ocean schools of fish are more cultured than the hillbilly Bill Gates and his posse.

The boy, *Bill Gates* does not have a college degree, and is quite confused and believes that Whites are the Master Race. I have many white friends, and they are urban professionals. They are worried about generally other things than how Master Race they are, like catching a movie with friends, dining out, trying to figure out if the hot woman they think is the love of their lives is going to be sleeping with other men in the end, that sort of thing. They are mostly Democrats but some are Republicans. Master Race is not really part of the scope of American legitimate politics.

As you can imagine, when in Cultural Sahara, the sort of Master Race Theory Bill Gates invented – which is quite wild and imaginative because Hammurabi is apparently white too – is bound to have some limitations. There is no appreciation for who is exactly white? He does not actually answer this in meta either. He begins chanting 'whites are superior. whites are superior' without explanation of what he's talking about exactly.

Eventually, after you deal with this miserable worthless idiotic son of a bitch you realise that his intellect is too low for him to appreciate what he is actually talking about. He does not know that white people in San Francisco and New York are extremely hostile to white supremacists for example.

Anyway, his sort of Dystopian Vision of Racial World Order is ten times worse than the type Nazis imagined. He does not realise that Europeans hate these things because they were devastated by war for Nazi ambitions. He literally thinks that Europeans will just accept same views as him by fiat. That's what happens to people who were deprived of culture in the boondocks of hicktown nowheresville and don't have any college education to know anything at all about history or culture of Europe, of Asia, of America. He believes the Nazis who slaughtered Jews

in Europe were 'superior'. That's the sort of cat he is. He's literally not as posh as Nazi German Racial types. It's really tragic.
