EXPLAINS WHY DEATH WILL HAVE STRONGER IMPACT
THAN CONSEQUENCES OF MAI LAI MASSACRE IN

On one had it is true that between 2001-2021 America was involved in wars in Afghanistan and Iraq. But I have revealed more than enough evidence that the September 11 2001 events were *not at all* any Muslim hijackings. There were no Muslims involved at all in those events. They were orchestrated by Israel's Mossad. They used remote control of commercial jet planes and demolition. Their purpose was to foment an event that would trigger war plans for regime change in seven Muslim ("Soviet-influenced") nations in Asia and Africa. The plans were developed by neoconservative strategists in Washington and classified. Israel's Mossad triggered those plans to turn American people against Muslims, which was meant to shore up Israel's various anti-Muslim political activities. I did not know about all this and had to work hard to decipher the events.

I am not Muslim at all myself. I was Atheist between 1979-2008 and when I found my own faith, it was neither Islam nor Christianity. For a variety of reasons I know much more about Christianity than I know about Islam, even though my mother and aunt and father were Bengali Muslims. I myself never was. I am sympathetic to Christians and Muslims, however, even though these religions are not my own. I am not "Spiritual but not religious". I am a man of strong faith, even though that faith is not an organised religion.

I am in a fairly unique situation in life. I had struggled for more than a decade, 2008-2022 to work on my four-sphere theory and on some other issues without support of any university or government, isolated in Allen Texas. My convictions about physics I had proven out. They include some conclusions about Nature – such as Eternal Recurrence, that is for me absolute truth, and not consistent with theological doctrines of Islam or Christianity.

The wounds in my Deep Interior that will most likely cause premature death for me are not accidental; they were malevolently and savagely and barbarically inflicted by *Bill Gates*. This man used US War Power, US Industrial Power, and European Black Magic forbidden from thirteenth century, destructive use of Conquest and Enslavement meta in my Deep Interior and many other maneuvers that are against (a) Christian Law, (b) American Law, (c) International Law, (d) White Law. He did these things mostly in peace time. He also 'considered' me not American which is quite ludicrous, because I have lived in America for 34 years and for 25 years had US Permanent Residency.

Date: February 21, 2022.

By the laws of this nation, my American-ness is not possible to dislodge with his resources, personal wealth of \$131 billion. He used *US War Power* against an American *during peace time* violating Geneva Conventions for restrictions on use of War Power against Prisoners of War. This is not just criminal but this is also *Treason*. And yet, the United States Government did not do a great deal to prevent him from harming me.

He has revealed various programs he has for *Genocide of all non-white people, roughly 100 million* in America directly to the United States Government in meta recently. Admittedly this is not public enough but it is true. And yet, the United States Government, whose foundational charter includes US Declaration of Independence Preamble, which explicitly states and does not leave to ambiguous interpretation that *the purpose of government is to secure natural rights of Americans* and that all men are created equal and have natural rights, the obvious corollary of which obviously being that all white men and all non-white men are created equal.

You see, US Declaration of Independence Preamble is not fluff rhetoric for all United States Government officials and employees. It is part of the Constitution of the nation. Therefore it is directive for what the organisation United States Government must do in order to ensure that the nation state is legitimate.

There is no *discretion offered* for United States Government on matters of natural rights security. It is not the role of the United States Government to judge who is *valuable* and who is *not valuable*.

My own views are obviously that I am a million times more valuable to the United States of America than Bill Gates, for I adhere to laws of the Republic, and my achievements are infinitely superior to his.

But from the United States Government's perspective, natural rights of those Americans who have not broken United States Republic Laws are not matters of discretion. They are *Constitutionally mandated* to secure natural rights of any and all Americans without exception. To the extent that they arrogate to themselves the right to judge who ought to live and who ought to die, they are totally illegitimate as a government of United States because US Declaration of Independence has already addressed the issue clearly. Unless this is Amended, the United States Government has no discretion on the matter.

In the conflict between Bill Gates and myself, they are obligated to destroy Bill Gates for I have not violated United States Law and he has not only done so but he has done so at extreme levels that are unimaginable for most Americans.

The impact of my death will be substantially more severe for the United States of America than that of the aftermath of Mai Lai Massacre, I predict. First, it will be more severe because I have a huge amount of explicit reference reminding United States Government of the exact wordings of United States Declaration of Independence Preamble. And so the moment they are unable to comply with the charter of the nation explicitly, they will have to be thoroughly evaluated by nations of the world at the United Nations for all nations have populations to secure, and United States Government will not give them rational basis to trust that they are not a threat to natural rights of all people of the world.

1. MY OWN ESTIMATE OF PROBABILITY OF DEATH

My current estimate of probability of my own death is roughly 65-70% within the year. I do not believe that Harvard or Stanford have the ability to overcome Bill Gates blockade, the damage to my own Deep Interior and other obstructions to deliver tenure offer or funds before my death. They are protected in a way, because they have not written to me acknowledging that they have read any of my emails to them. But that is a technicality. I believe that the damage to my Deep Interior is not repairable and is fatal for me. The harm done is directly by Bill Gates who premeditated my death, and United Nations Human Rights consider showed this, and it is part of his *political agenda* to destroy and kill non-white people and prevent us from success in our American Dream. However important to understand here is the *complete complicity with Bill Gates of the United States Government* and that is the more important issue, that the American Government colluded with Bill Gates against the natural rights of its own people knowingly and not by ignorance. This is much more important for the United Nations to understand clearly, that the United States Government literally allows criminals to use *US War Power* during peacetime to destroy and kill its own people.

2. BILL GATES IS JUST A CON MAN WITHOUT MORALS WHO IS A MURDEROUS MAN WITH ILLEGITIMATE AMBITIONS TO RULE THE WORLD

You see United States you have to read history to understand the situation. Bill Gates is a con man who has illegitimate ambitions to rule the world and produce a Dystopian Racial World Order. History will record that, but the analysis will be that United States Government was weak and anemic so these types of criminals ran amok in the nation and the United States Government was incapable of handling them and in the end the nations of the world could not tolerate the dangerous threat and had to do something to protect their people and so on. I am surprised that the United States Government does not see the obvious historical narrative here.

Now Zulf proposed Natural Rights World Order, and I am an immortal genius in Science, so even if America mistreats me my legacy is more solid than the existence of the United States because I am of Asian Origin and Asia will revere my memory and preserve my work in the end.

I will die here in America but I will be immortal. United States of America will not fare as well if I die.
