

BILL GATES' ARROGANCE LEVELS ARE QUITE FASCINATING

ZULFIKAR MOINUDDIN AHMED

Bill Gates' arrogance levels, when not just Stanford and Harvard and many academic institutions, but both Democrats and Republicans of the ordinary type – who strongly believe in natural rights security, all of Finance since Christine Lagarde knows of his antics, then United Nations Security Council, and then all the nations in United Nations will all eventually turn against him and support me. Why? Because I am just an American who was following law and following my American Dream. And he is a racial murderer who wants to be Emperor of the World in 2021 and has destroyed my interior and many other important elements of my ethnic meta. He has some friends high in American Government but he lied to them about my papers. I have 24 years of legitimate Permanent Residency papers.

Now the fact is that I am surprised that the United States did not immediately kill him, because he would be killed in all other countries. So that's how it is here, these racial murderers are coddled. That's no problem. He ought to be wiped out and he will be.
