

**UNITED STATES MILITARY PLEASE ASSESS WHETHER BILL  
GATES IS WORTHY IN CHARACTER AND SOCIAL  
DEVELOPMENT TO SERVE AS HIGH MILITARY OFFICIAL**

United States Military, Bill Gates I will claim is an a savage barbarian cruel evil tyrant who is unable to treat others with any respect and uses always methods of denigration and harm to those who defy his will. He is not capable of serving in any *human organisation* in a leadership role and would be disqualified from the *Hordes of Ostrogoths* who felled Roman Empire.

Why don't you do a neutral and unbiased consider and see if you can salvage anything of value in the boy? I'll be impressed if he would not be sent to 10,000 miles of running in the tracks for his outrageously bad attitude in a boot camp by any sargeant in United States Army.
