United Nations Security Council and Human Rights Council found that Bill Gates had inserted US Industrial cutters in my Deep Interior, pumped my Life Blood and used US Industrial Power to cut and slice my flesh for more than a year. These things begin to affect the physical flesh after a while.

He did these things because he is not a human being at all but an Evil Demon. By United Nations Human Rights and Security Council assessment these are extremely grave War Crimes.

The United States Government ought to confer with United Nations Security and Human Rights Councils, and totally destroy all Bill Gates operations and kill him immediately. Most people would not be able to survive these evil things.

Bill Gates has revealed to the United States Government that he intended genocide of all non-white people. I have personally heard him say he considered the white right to kill non-whites as sacrosanct.
