

OPEN LETTER TO UNITED NATIONS HUMAN RIGHTS AND SECURITY COUNCILS

ZULFIKAR MOINUDDIN AHMED

Dear UN Security and Human Rights Council,

Today is my 49th birthday, and I want a good birthday present from you. Don't surprise me. I know what I want. I would like you to give me a team of 50-100 lawyers who are experts on United States Law and International Law and Human Rights Law. I sent an email to General Norman Schwarzkopf, who you know. I believe that there might be breaches of all manner of laws by the United States Government – you know how these things work, the Executive Branch gets sloppy breaks a law here and there. So I want United States to pay \$1-2 trillion for breach of contract with me for my Permanent Residency if they fail to secure my Natural Rights of Life, Liberty, and Pursuit of Happiness, and also my private property of \$620 million. The reason for this is that a key member of the *Enemies of Liberty of Human Race* Bill Gates had deliberately planned to harm and destroy me including deny me my private property of \$620 million. I want you to examine whether they have any corrupting relationships with this criminal, what laws they have been actually enforcing against him, whether there are various racial bias issues involved surrounding the disturbing US Government-Bill Gates relationship, whether there are paper and written communications, whether United States Government knew about but suppressed information about his criminal activities with a conspiracy to put its own people in harm's way deliberately and various other things.

Why don't you select a team of 50-100 lawyers and set up shop in Washington right away. I will be interested in going to San Francisco.

Thanks,

Zulfikar Moinuddin Ahmed
