

## BILL GATES' LATEST ANTICS JULY 5 2021 IMMUNITY FROM CRIMINAL CHARGES FOR BIG PEOPLE

ZULFIKAR MOINUDDIN AHMED

Bill Gates is, I know this intimately well because I am one of his victims, a totally unreformable dyed-in-the-wool criminal cunt who is adept at murder and harm to people.

Janet Yellen was asking him in meta something and he is literally demanding that even Divine Right of Kings in an earlier age did not entail. He wants total immunity from all criminal charges with the reasoning 'too big'.

This is one of the saddest chapters of American history, when a man who was gifted a good successful life by the Multi-Ethnic Classical Liberal Democratic Republic, at 66, seeks to overthrow all laws and customs of the Democratic Republic with absurd demand that even Divine Kings of Europe's Middle Ages would be ashamed to demand, that he be held immune to all criminal charges *for many many murders and other criminal violations in the past five decades* and wants to have the right to more without penalty because he is *too big*.

That's quite something. He is a total cunt to the very core of his soul. This sort of entitlement has only one answer, totally destroy and obliterate him by heavy bombing and erase him completely from all history as an embarrassment to America.
