

BILL GATES' LACK OF EDUCATION IS QUITE AMAZING IN WESTERN CIVILISATIONAL HISTORY

ZULFIKAR MOINUDDIN AHMED

Dear Germany,

This letter is addressed to you only because Bill Gates happened to have used German War meta against my Body and Deep Interior. I want you to remove all that, and also take responsibility to tell the whole world publicly that if I die, it is not coronavirus or suicide but explicit action of Bill Gates.

Now I will ruminate on this Bill Gates phenomena that is interesting to me. Years ago, at Princeton I took a course on *Political Culture*. We studied many great works in the course, including Alexis de Toqueville's *Democracy In America*, which appeared 1835 and 1840. The spirit of Democracy in America was a matter of great interest to Europeans at the time, for no European country had been founded on the Enlightenment principles that bloomed during the Romantic Era. This was a new independent nation that had its very foundations on philosophies that were new in Europe. All men are created equal with natural rights endowed by the Creator and not by the kings, and governments exist to secure them and not simply to rule as tyrants. Beautiful new principles.

Now stepping aside from all the delicate issues, the world has changed since 1835-40. Today polls from Gallup and Pew are global, and we know that 80 percent of the world's eight billion believe in natural rights that are not granted by kings, and this is named human rights and there is a Council in United Nations where Human Rights have been part of international law since 1948.

What is curious about Bill Gates is that he has some peculiar political views, such as 'whites are superior' and has some malevolent views about non-whites, in America and abroad, and he was born in a mature democracy in 1955. And it does not occur to him that he cannot expect other people to either agree or disagree with him at all without public campaigns to publicize his views. He *assumes* that other people, *in a democracy of 330 million* will agree with extraordinary political positions that he believes in, without any public appeal at all. And in public statements he projects artificial political positions that he calls "PR".

Now this is quite an intriguing phenomenon. Alexis de Toqueville would be most interested in understanding how this happens, that man with \$131 billion of wealth, has this sort of understanding of reality. It's also extraordinary *psychology* too. I invite Germany to investigate this anomaly thoroughly.

1. I WANT GERMANY TO MAKE THE RECOMMENDATIONS TO UNITED STATES
GOVERNMENT

United States Government was extremely negligent in allowing a man like Bill Gates, who despises a consensus-based world order, and wishes seriously to be the Emperor of the World, to gain wealth and power and land in this nation.

I want Germany, with others, to explicitly propose reforms of United States Government to prevent the rise of these sorts of people. For all Americans born in this country, there ought to be thorough examination of their acceptance of the consensus-based world order and respect for natural rights and democratic rights of other before they are allowed to hold great wealth and power in the nation.

Because of their negligence, today, my life and health is virtually destroyed, and it is my solemn duty to ensure that no others of my beloved people, the human race ever has to face destruction and death by people who should never been allowed to gain \$131 billion, any success in the nation or any land at all.

2. BILL GATES WAS SUCCESSFUL IN BLOCKADING \$620 MILLION OF MY
LEGITIMATE EARNINGS

Despite laws preventing this, Bill Gates was able to sabotage all my earnings including \$620 million of personal wealth due from D. E. Shaw & Co. and Christine Lagarde with *no recourse* to United States Government who have taken his side. I am living in almost no income for a year while Bill Gates brutally and unlawfully assaulted my personal meta with massive damages right in United States Government's jurisdiction and they have done nothing to prevent this. He is not even taken for questioning. I am not amused at all.

Sincerely,

Zulfikar Moinuddin Ahmed
