

ZULF THINKS UNITED STATES WILL BE FACING SERIOUS PROBLEMS ASSUMING CHINA IS LESS DEMOCRATIC THAN AMERICA

ZULFIKAR MOINUDDIN AHMED

During the Cold War "Red China" and Communist Dystopia and all that worked well with American public. I see already New York Times taking aim at Chinese censorship. Unfortunately this is all fake propaganda. I am not exactly a well-traveled person in Asia. I never lived in China at all. But it's clear from the Democracy Perception Index poll of 2021 that China is a far more vibrant Democracy than United States right now at the level of people's satisfaction with Democracy. I am just sick of New York Times on these grand fakery. They put photographs of 19 people on September 11 2001 and Muslim-hatred in America went through the roof and a decade later I deduced that there were *no Muslim hijackers at all* in those planes. I am sick of this game already.

China's Democratic participation is a lot healthier than America's [1]

40% of people say there is "not enough democracy" in their country

% say there is "Not Enough", the "Right Amount" or "Too Much" democracy in their country

This matters a lot because Americans will be the ones who suffer after the propaganda lies go through the lies to get public support for another disastrous Asian war. And I am totally sick of United States Government's malevolent disregard for

non-white lives. There will be destruction of more Asian lives and all manner of destruction to please the greed of Bill Gates and other predatory wretched miserable cunts. It's sickening.

Anti-Chinese propaganda that is modeled on assuming that they are authoritarian is total lie as is clear from the work of Democracy Perception Index data. These people they just make up total lies with the expectation that the American people will not have any way to know the difference. Disgusting.
