

ZULF IS ONLY INTERESTED IN GEO-POLITICS AND WILL NOT GET INVOLVED WITH NEW YORK CITY POLITICS

ZULFIKAR MOINUDDIN AHMED

I congratulate Mayor-Elect Eric Adams. He will do a great job I am sure and I wish him all the best. New York is where I went to High School, in John Adams High School in Queens, when Mayor Ed Koch was running the city. I have no complaints as I then was under the tutelage of the remarkable lady Lys K. Waltien who is a great figure in my life and catapulted me to Princeton.

I am only interested in Geo-Politics. Running cities is a great challenge, and running countries too. But I am only interested in Geo-Politics of the Human Race. It's not better or worse, just different and I don't have any powers. I just am good at Geo-Political plays that change the entire world. I'm not good on smaller scale at all. I got to do what I got to do, you know? I'm not good at city. I am not good at state. I'm not good at nation. But I am great at world. So I stick to what I'm good at.

Now you might say, well how can that be? Don't you need to get from one to another? No. I am just good at Geo-Politics. In fact I am one of the greatest in Geo-Politics. And I am terrible at smaller than a few million. Even parties of 50 I am bad.
