

UNPOPULARITY OF POLITICS

ZULFIKAR MOINUDDIN AHMED

People not interested in politics	
Arab	0.65
Black	0.65
East Asian	0.60
Indian	0.52
Other	0.55
White	0.66

The mean $\mu = 0.60$ with $\sigma = 0.059$. This is a beautiful ethnicity independent result.

1. TIGHT BOUNDS ON INTERESTED PEOPLE

For 'very interested' we have mean 0.092 and standard deviation 0.03. For 'somewhat interested' mean 0.304 and standard deviation 0.044. These are remarkably

Date: May 15, 2021.

tight bounds. There is more variance on the difference in 'not interested' and 'not interested at all'.

These are extremely nontrivial regularities that are global and ethnicity-independent.

2. WIDER ETHNIC DIFFERENCES IN CONFIDENCE IN GOVERNMENT

While interest in politics follows tight uniformity independent of ethnicities, there are stronger ethnicity effects in *Confidence* in government. These are delicate differences that require a bit of care.
