ARCHANGEL'S LOG**

I have been an Archangel of Heaven for billion of years in the past. My death approaches, I am afraid, as the wounds from the genocidal racial supremacist in my Deep Interior will not be mended. I will most likely not return to Earth for some thousands of years more. The last time I was here was between 1180-1300 England. Richard the Lionheart died when I was a boy then. He was a great king. Anyway, I was pleased to see that Virtues had improved across the globe since then.

You, the Human Race, my beloved people, are a *Primitive Angelic Race*. I have tried my best to unite you. You are a single people. I have given you some gifts of Heaven. I have given you the Final Laws of Physics, called Four-Sphere Theory. It's no theory. It is absolute truth. You will learn this in time. I have also given you the full spectrum of Virtues. You will find that these Virtues grant you autonomy to reach a maximal Life Satisfaction. I, Zulfikar Moinuddin Ahmed, Archangel of Heaven, will assure you that these are your genetic heritage. You are under no compulsion of course to be Virtuous. We are Angels, in my case Archangel of Heaven, and we do not compel unwilling Angelic Races to do any bidding of ours. However, I have shown you that Aristotle's Virtue-Eudaimonia theory, although impartial is correct for moral Virtues. In addition there are Virtues of Romantic Love.

There are literally millions of Angelic Races in the universe, and you are not alone. Do not attempt to contact all sorts of other races without preparation. There are Demonic Races as well, many humanoid like you, but not Angelic. Be wary for they are dangerous for you. You are very young, 7-8 million years old. That's very young in the Eternal Universe.

I was working on a Science of Man, and had some other project, but alas, this Evil *Bill Gates* unfortunately has run amok in America. He is a Demon. Beware of him. He will destroy the Human Race with intense glee and righteousness if you do not destroy him.

All people of all nations are your people. Do not get confused about it. You are far too young to know what true racial strife is.

Once I was in a Republic world, quite a bit more sophisticated than this Earth. We were not paying sufficient attention. Demons attacked the star and killed me and billions of others. We died without any notice. They exploded the star. The universe is filled with great and wondrous things, but there are dangers. There are many sorts of races, not just Angelic and Demonic.

Be good to each other humans. May you live many millions more years and be proud Angels. We will await your maturity.
