

ZULF RATCHETS UP THE RHETORIC AGAINST UNITED STATES GOVERNMENT AT THE UNITED NATIONS

ZULFIKAR MOINUDDIN AHMED

United States Government,

I will be ratcheting up the rhetoric against you at the United Nations. I will be accusing you of being an organisation that, while superficially using rhetoric of the fouders in US Declaration of Independence Preamble, universalist discourse, of being *totally dedicated from the very beginning to genocide of the non-white peoples of Earth* which grew from Andrew Jackson's Indian Removal Act of 1930, to nuclear weapons used in 1945 against civilians in Japan, to 1968 Mai Lai massacre of brutal indiscriminate children of pregnant women and children and burning down entire villages, wars in Korea, Vietnam and Iraq and Afghanistan begun with sabotage to blame non-whites. My life has been devastated by racial murderer and born criminal Bill Gates and I am American, and he had done even more destructive harm in the past 24 hours. I am American, perhaps the only American on Earth, for I hold these truths to be self-evident that all men are created equal with natural rights endowed by their Creator. But you, the United States Government do not hold these truths to be self-evident, and your actual ulterior motive has always been the Genocide of the non-white peoples of this world, hasn't it. You have been using the universalist rhetoric around the world to hide your true agenda, United States Government, haven't you. Well this *charade ends with Zulf, sonny boy*.
