

## ZULF DOES NOT CONSIDER UNITED STATES GOVERNMENT TO BE A CIVILISED ORGANISATION

ZULFIKAR MOINUDDIN AHMED

United States Government has some *elements* of Civilisation, but it is not a Civilised Organisation at all. It had *potential* to be a Civilised organisation from US Declaration of Independence Preamble. That is a great breakthrough. But the actual behaviour of the organisation, this *United States of America Government* as it stands I do not consider a fully civilised organisation. It is savage and barbaric, with elements that have potential for future civilised organisation. I will Civilise the American Government somewhat but I am not sure how much we can do about this really. You see, there has never been a less civilised, more savage, evil, barbaric than Bill Gates, and when an organisation ties itself closely to such a man, a man so horrible that Atilla the Hun seems posh by comparison, there are grave doubts about the organisation.

### 1. A HIDDEN ASIAN MANIFEST DESTINY

American Government, during the Cold War had a drive for Asian Manifest Destiny that was hidden and submerged under the rhetoric of Cold War against USSR. And since 1989 that Asian Manifest Destiny Program, perhaps not explicitly articulated, but seen clearly in penchant for aggressive wars in Asia with a generous element of total lies and deception and self-sabotage to manufacture *causus belli* had been the *modus operandi* of American Government. It is today as uncivilised as in 1830 when President Andrew Jackson ordered the Indian Removal Act. The United Nations is unable to tame this beast alone.
