

A GIFT FOR PROFESSOR GORO SHIMURA

ZULFIKAR MOINUDDIN AHMED

Professor Shimura,

You are one of the greatest number theorists of twentieth century, and we are all grateful for your great gifts to the human race. But the important question is whether you missed the greatest moments of Japanese Diplomacy in Israel 2018. This is Prime Minister Abe trying to look quite pleasant in Israel when there were shoes on the table the entire dinner. Now that is true love for his country.

Sincerely,

Zulfikar Moinuddin Ahmed
