

**US EXECUTIVE BILL GATES IS ILLITERATE SCRUB  
CHARLATAN TO ME FIX MY NATURAL RIGHTS OR  
WASHINGTON WILL BE OCCUPIED BY FOREIGN POWERS  
IN WEEKS**

ZULFIKAR MOINUDDIN AHMED

United States Government Executive Branch. My Natural Rights are sacred to me. I have never met Bill Gates. I did not go into retail software tech. I went into finance, and I worked with Robert Reich on more document management in late 1990s. I heard about Bill Gates but I don't know him from a can of tomato soup. If he controls my employee meta when I have my own company and seeking Finance income held up by him, I will arrange a quick war and Washington will be occupied in two weeks. You better secure my Natural Rights.

Bill Gates is an illiterate scrub charlatan to me. He made third rate software. I would not seek employment from a college droupout in a million years.

Fix this very very soon because I can reorder the world order and have all of Washington occupied faster than Pentagon can even blink ok?

I am a Permanent Resident, so my Naturalisation vows are not going to protect you. My Natural Rights are intrinsic. I am sick and tired of intervention and destruction of my Deep Interior for a year by this criminal what's his face.

Whether you take my warning seriously or not is your business. I am not known to lie deliberately and am quite honest.

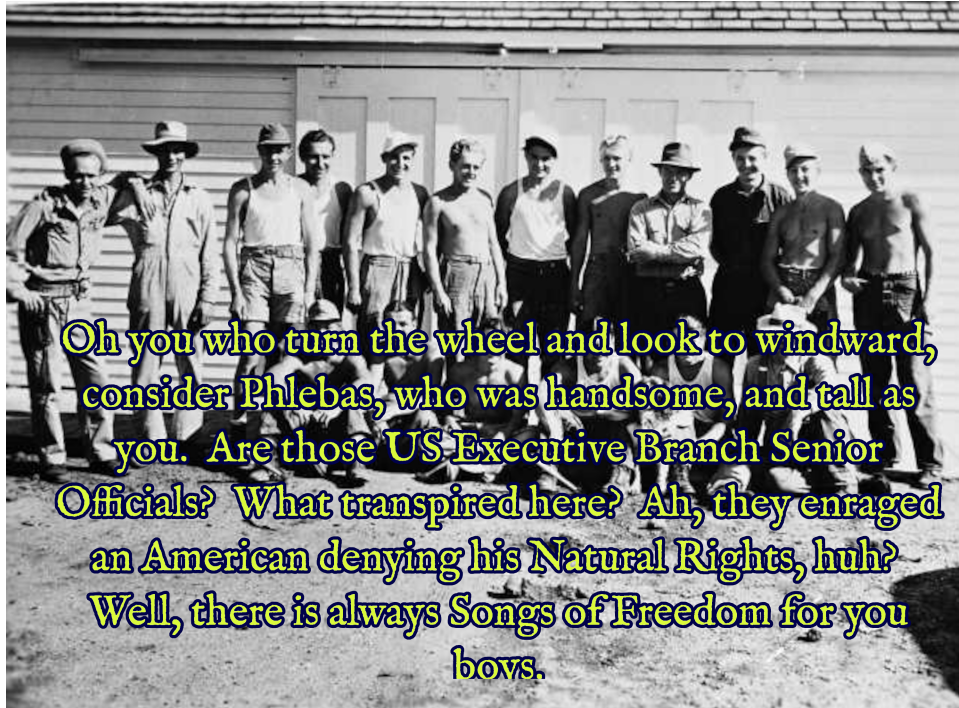

1. ZULF CONSIDERS IT MY RATIONAL DUTY TO SELF TO PREPARE  
OCCUPATION THREAT TO US EXECUTIVE BRANCH

I am preparing some promotional material to induce a threat of foreign occupation of Washington. This will seem quite strange to many Americans that I, an American who strongly agree with the US Declaration of Independence Preamble and the Founders of this Nation, would produce threats to the US Government Executive Branch for Foreign Occupation of Washington. I have no qualms, for I was endowed by my Natural Rights of Life, Liberty and Pursuit of Happiness by my Creator and not US Government at all. They were required, in order to remain a legitimate government for the American People, to secure my Natural Rights, and when they are in a state of illegitimacy regarding their Constitutional mandate, given that I have Permanent Residency that is valid, USCIS# 046-077-179, that expires in 2031, *but* have not signed any Naturalisation papers yet, which would constrain me to certain *loyalty vows* to the US Government, I have no difficulties at all producing some threats to compel the US Executive Branch into securing Natural Rights for myself and indeed for all Americans.

Let me start with this poster of Prisoners of Wars, a historical photograph of German Prisoners of War. I took the artistic license to represent something slightly different.

This is an artistic piece in a sense. Now I will propose a world order play that has some characteristics:

- Nuclear weapons are banned totally
- Natural Rights Security for eight billion mandated
- Germany, England, and France have mutual defense treaty in UN Security Council Resolution with Russia, China, and Japan

This world order change would allow vulnerability for UN Peacekeeping to effectively occupy Washington with backing of International Law the moment United States is unable to exercise veto.
