

SECOND OPEN LETTER TO BILL GATES NOVEMBER 25 2021

ZULFIKAR MOINUDDIN AHMED

Dear Bill Gates,

India has more than two *thousand* ethnic groups. I know that your intellect was stunted from being an illiterate college dropout and all the pretense of reading books in camera about whose contents you have not the slightest idea. But let's take a look at the map of ethnicities in India.

India has 1.38 billion people, which is around four times more than the United States of America. It is the world's largest democracy. [?].

Date: November 26, 2021.

India has had urban civilisation from before 1500 BC, long before there was any civilisation in Europe.

1. ONLY IDIOTS THINK HEGEMONIC POWER IS POSSIBLE EASILY

You see, Bill Gates, India has so much political experience that no one in India would ever consider that selling *third rate software* and *third rate PC operating system* and racial and other murders for some decades breaking United States Law is good preparation for hegemonic power. India can *easily infer* that there are many thousands of ethnicities and political harmony for eight billion people requires *more than a high school degree from podunk Seattle*.

As a result of having been involved in the civilisation business for a much longer period than even England, Germany, and France, India is unlikely to seek geopolitical hegemony.

Does all this make sense to you Bill Gates?

Thanks, ZULFIKAR MOINUDDIN AHMED
