

**ANY MAN CAN EASILY HUG AND KISS AND ROLL AROUND
IN THE GRASS MAKING LOVE TO A WOMAN WHO
ACCEPTS HIM**

ZULFIKAR MOINUDDIN AHMED

I was talking to Julia and she says I want love and affection and a good family. I was thinking about it. I can do this hugging and kissing and rolling on the park making love with any woman I find attractive and who accepts me sexually without even morning coffee. I've done that many times and it's easy peasy for me. It's just mostly the PLAY system. I grew up with three siblings and have a well tuned PLAY system and that is fun to do.

But the trouble is that it's PLAY system, so unless you are badly damaged, you can do this too. And now half a billion men can easily do it. And what do you say about this.

I am a gentleman, so I say, ok darling, there are literally 200,000 single men with good jobs and good prospects who can do this for you. If that's all you want, that's super easy. So what's in it for me? That's not that special. It's standard. It's so normal that men do those things, that it's not that special in a way. It's bad when a man does not do that, but that's pretty rare.
