

ZULF'S DEMOCRATIC COUP OF BILL GATES AND ENEMIES OF LIBERTY OF HUMAN RACE IS IMPENDING

By various fandango I managed to get American Whites turn against Bill Gates and the *Enemies of Liberty of the Human Race*. It is obvious that all non-whites in the world will also go against *Enemies of Liberty of the Human Race*.

This means that Democratically, *Bill Gates and the Enemies of Liberty of the Human Race*, are squeezed as all people of the world will go against him. He has some resources and wealth and power, but now that American Whites go against him, the noose against him and his wealthy white backers will tighten slowly but surely.

It's cliché of course, but this he's surrounded and he will fight for dominating the entire Human Race against their will now. Now that's really fancy. I did not know you can have people who literally want to dominate the *entire human race* against their will.

Let me see if I can find any cartoon bad guys who ever did that. Well the Justice Lords had this sort of thing where they snuff out freedom across the world.

I won't get into their story. The important thing to understand is that Bill Gates' aim is in fact to enslave all non-whites and rule the world as the King of Whites. We are grateful that American Whites are going against the *Enemies of Liberty of the Human Race*. I want to point out that Bill Gates' ideas are literally akin to super-villains of comic books and it should not be taken lightly. His values are not in the same reality as the rest of the American White People.
