

## CREDIBILITY AND PERSONAL INTEGRITY AND TRUTH

ZULFIKAR MOINUDDIN AHMED

I am American, and I am 48. For a long time, I had explored many issues of politics and justice and human nature and so on. I am philosophic by nature, so for me these are inevitable. I was also Atheist from 1979, from a Muslim family. And if you are not familiar with Muslim moral convictions, then it may not be easy for you to understand my predicament. Muslim people are good people; on many topics their morals are stronger than almost anyone in the world. They are good people but they are typically impossibly stubborn. My family is Muslim, except for my younger brother who was Christian for most of his adult life, married to a Christian white woman from Kentucky. I have dealt with my family all my life and so when I have differing convictions than them, my own convictions need to be *much more stubborn than theirs*. So as you might imagine, I am much more zealous in my convictions about the world, spirituality, right and wrong, than most zealous Muslims.

Now that should tell you something about me. I am absolutely fanatical religious devotee, but not of Islam or Christianity or Judaism or any known religion but of my own faith that I have slowly built up over my life.

In some ways I am like a Christian, in some a Jewish person, and in others like a Hindu, and so on, but these similarities are not about me; they are about how you can place me in your world. I don't care about other religions. I can tell you about my own faith.

### 1. UNIVERSE HAS EXISTED FOR INFINITE TIME IN THE PAST

I can tell you that the universe has existed for infinite time and had no Creator and no moment of any creation at all. I know this with 100% certainty. I work to disseminate this knowledge. Muslims, Jews, and Christians have other opinions they cannot prove. I don't have this problem.

### 2. TRUTH IS ONE

Truth for me is one; I know some of it through Science; other things are matters for me of subjective faith. For me integrity is extremely important, because I have to make sense of a single unity of Nature. I don't like incoherence. For me coherence is not a weak intellectual criteria for I have faith in a single Truth. I have spent a lot of time examining the issue and have come to the firm conclusion that the Human Race is a single race. I not only strongly deny that there are multiple races in the human race, but consider those who believe such nonsense to be not just ignorant but quite a bit more *primitive* than myself. I denigrate them the moment I note any conviction. For me to be racial is to be backward and primitive and uncivilised and lacking in education enough to know better. I do not respect such

people. It would be okay if they were open to rational debate but often they hold on to their convictions with additional war songs to conquer me and others and these I consider to be malevolent criminals who ought to be wiped out altogether. We don't need these people at all; they are dangerous to various people who deserve to live their lives without random threats of criminal harm.

### 3. UNIVERSAL POLITICAL IDEALS

I am an American with Universal Political ideals including all men (of the entire world) are created equal with Natural Rights that is the obligation of every legitimate government to secure. I take this very seriously. For example, I do not consider Israel to be in the same political arena as ourselves because they do not believe in Universal ideals. Their liberal ethnocracy is anemic in convictions regarding Natural Rights and just governments.

### 4. ARISTOTLE'S VIRTUE THEORY FOR EUDAIMONIA IS RIGHT

I am not an ideological believer. I vindicated Aristotle's Virtue Theory for Life Satisfaction and discovered that he was right. So I am Aristotelian in a sense. He's right by empirical measurements, so I am Aristotelian. I don't generally care about following individuals with the exception of Rainer Maria Rilke who is a Great Prophet to me, at least with the Ten Duino Elegies.

### 5. MY INTEGRITY IS IMPORTANT TO ME

I work hard to understand things and get things right. I do it for myself, because it matters. I don't give a damn what nation or person of great power forbade what view. My integrity is much more important than them. I don't care what national government with many powerful people in Washington or Moscow or London or Beijing have what views. If they go against me, I'm right and they are wrong. Who do they think they are? I'm Zulf! I'm Zulf! So my views are right.

### 6. WHO DID 9/11?

Neocons in Washington had some classified war plans for regime changes in Middle East in the 1990s. Israel knew about them and so they staged a hijacking and remote controlled two planes into Twin Towers and demolished them to trigger the wars. Muslims had nothing to do with 9/11. That's just what happened. I won't go into details. It's the right answer. See, I don't care what you think. I am right.

### 7. ISSUES OF CREDIBILITY

Credibility comes from respect and trust. People who get to know me know that I am honest and serious and so I have credibility for them, even more than many nations. That's all credibility is. Now if you trust the wrong people, you will buy into a lot of falsehoods and believe them, like "Muslims did 9/11". It's not true. Do I want you to trust me? Actually, I don't give a crap. If you trust me, I'm not doing anything for you, so it's up to you.
