

ZULF USES PROSECUTORIAL DRAMATIC STYLE TO DESTROY BILL GATES REPUTATION

ZULFIKAR MOINUDDIN AHMED
ZULFIKAR.AHMED@GMAIL.COM

Ladies and Gentlemen of the jury, you are the entire human race. The man accused in front of you, his name is Bill Gates. These are his trials, and I, Zulfikar Moinuddin Ahmed, am the prosecutor.

In the course of these trials, you will be asked to judge whether the accused, Bill Gates, born in 1955 in Seattle, a provincial frontier town of northwest United States, is a hick charlatan without any literacy, without any great intellectual genius, who was a hick charlatan and huckster, whose lack of education and his propensity to lie pathologically in his self-promotion, whose total lack of any scientific or mathematical or indeed computer software skills, his lack of culture and cultivation, and his tacky and gaudy tastelessness is proven.

We begin these trials with a simple photograph. Ladies and gentlemen of this jury, I will ask you to pay careful attention to this photograph for this will reveal to you profound truth about the type of man this *Bill Gates* is.

This man appears in public with jars of feces in his hand. This is not a joke, this is an actual photograph from Beijing in 2018. I begin the trials with a question to the jury to ponder. What sort of a disgusting son of a bitch would defy all evolutionary adaptations of seven million years of homo sapien evolution, whose olfactory senses evolved to protect our own health, and find feces totally disgusting, perhaps the

most disgusting and that every baby born on Earth learns without any training, walks into a social event with a *a jar of feces in his hands?*

I will let you ponder the answer to this question on your own time. Take as long as you need. And we will resume when you have a crisp and clear idea for the general question: *what can you make of a man who walks onto a public social event with a jar of human feces in his hands?*

Perhaps during the course of these trials you will find that your own convictions about the subject is not the same as others. Perhaps during the course of these trials you will find your own views vindicated.

The accused, *Bill Gates* will use different language to protect his reputation. If he keeps repeating "I'm white. I'm white. Whites are superior," I will ask you to consider whether any white man or any non-white man you have ever known will have walked onto a public gathering with a jar of feces in his hands. I will submit that you have never seen such a strange thing. I have lived in America among white people for 34 years. I can assure you that neither non-white people nor white people are immune to finding human feces totally disgusting and have never met any white or non-white man (or women, even more) walk around with a jar of feces in their hands talking about all sorts of rubbish.

1. FINE LET US PLAY THIS GAME

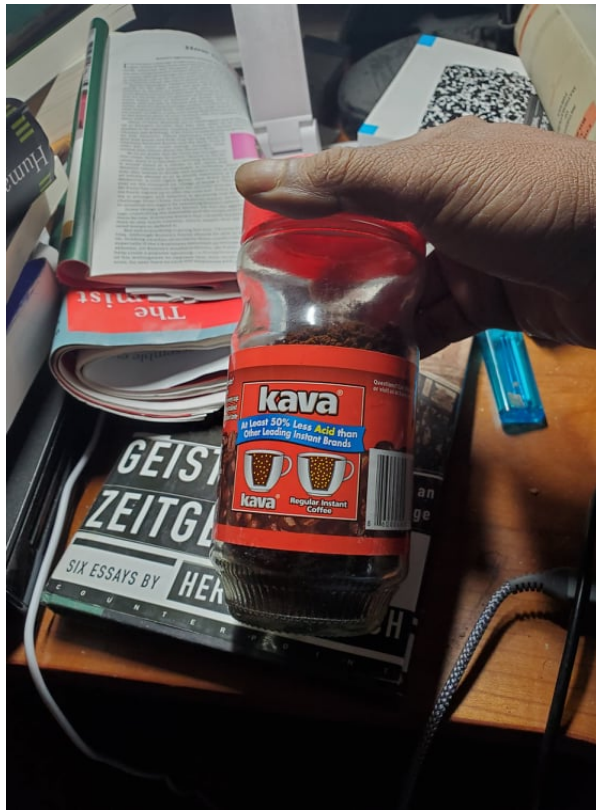

Bill Gates seems to think that whites are habituated to thinking that whites are clean and non-whites are dirty. Perhaps he is right and perhaps he is wrong. For a while he was applying Hannover meta against me saying that my blood is mixed with cockroach serum, piss and shit. "Very intelligent of the fake philanthropist Bill Gates," you might conclude. It did not occur to Bill Gates that it might be the case that if any human being is injected with cockroach serum, shit and piss, then they might be *poisoned and die*. Obviously a man very knowledgeable about biology, this Bill Gates.

That is myself some years ago. I am fairly clean, like most people, and I generally do not contemplate going around public gatherings with a jar of human feces in my hand. I am a bit absent minded, and do tend to wander around with a cup of coffee however, these days Kava coffee. But I doubt that it is considered so disgusting around the world.

2. GETTING TO KNOW THE PROSECUTOR

Well you might be wondering who is this Zulfikar Moinuddin Ahmed. Well, I have more extensive introductions to who I am in my other notes. Here let me show you a jar of something more pleasant than the accused brings to public gatherings. Kava coffee.

I like good coffee and I didn't really like the Nestle so much. This is quite smooth and it's good. I have a coffee-cigarette habit and I rather enjoy this. Yes I am a regular reader of the *Economist*. I graduated Princeton University in 1995 with a magna cum laude. It's a beautiful university and I am quite attached to Princeton; I consider Princeton as an important part of who I am as it had such a profound influence on all that I am.

I do not consider the accused to be educated. He did attend Harvard a couple of years but he was a dropout and I actually own a copy of *Enlightenment Now* of Steven Pinker and have some disagreements with the thesis but the accused, I am sure, has never read or understood a single word of it. He promotes this book which is light years ahead of his puny hick podunk mind, which leads him to repeat 'natural rights are claptrap' repeatedly in my meta. People who believe 'natural rights are claptrap' are not compatible with people who have read and understood anything from *Enlightenment Now*. But the accused, a total illiterate savage primitive hick charlatan, actually pretends that this book is his favourite book of all time.

Do not be fooled by Bill Gates, ladies and gentlemen. He is not intellectually even of menial level. He is a total fake and does not have even an iota of intellectual genius at all.
