

**ZULF WOULD LIKE PENTAGON TO RECORD IN WRITING
ALL THINGS BILL GATES HAS DONE TO OBSTRUCT MY
LEGITIMATE SUCCESS IN AMERICA**

ZULFIKAR MOINUDDIN AHMED

Pentagon, Bill Gates is no one to me. I was never his employee, and the only interaction I have had with him is that I showed him my Medium Frequency Strategy with D. E. Shaw & Co. with the expectation that D. E. Shaw & Co. would compensate me for my services \$120 million. Bill Gates has no business whatsoever to do anything at all with me. I am a Finance professional for many years and I have my own company I wanted to expand. I have lived most of my life in urban professional environments, New York, Boston, and San Francisco.

I want you to record all your discoveries of what powers he had expended against me, their legitimacy versus American Law, and the appropriate penalties for them. I don't really give a damn about his views about what I ought to be able to do and not. I don't respect the man at all. I respect him less than an honest junior coder who is clueless. I do not respect any of his so-called achievements. Now you might not do the right thing and just relentlessly bomb him to smithereens – which I still think is the best decision. But at the very least you should realise that I have not even had any plans to harm him. I was annoyed that my income was sabotaged from D. E. Shaw & Co. and he had no right to get in the payment of a reputable Finance shop to a Finance professional who had provided them with something. He put in \$2 bn in *my work* and is making good money while denigrating my work as *trivia*.

I want serious work here Pentagon. I am American and I want fair justice here. He used all manner of outrageous evil destructive powers with just obstinate 'white rights' to harm nonwhites that are completely fictional and anti-American. I want full scroll of every single violation of United States Law and their exact punishment doled out.
